CRASH3 User's Guide and Technical Manual ,1981 **Computer Recognition Systems** Marek Kurzynski,Edward Puchala,Michal Wozniak,Andrzej Zolnierrek,2007-12-13 th This book contains papers accepted for presentation at the 4 International Conference on Computer Recognition Systems CORES 05 May 22 25 2005 Rydzyna Castle Poland This conference is a continuation of a series of conferences on similar topics KOSYR organized each second year since 1999 by the Chair of Systems and Computer Networks Wroclaw University of Technology An increasing interest to those conferences paid not only by home but also by foreign participants inspired the organizers to transform them into conferences of international range Our expectations that the community of specialists in computer recognizing systems will find CORES 05 a proper form of maintaining the tradition of the former conferences have been confirmed by a large number of submitted papers Alas organizational constraints caused a necessity to narrow the acceptance criteria so that only 100 papers have been finally included into the conference program The area covered by accepted papers is still very large and it shows how vivacious is scientific activity in the domain of computer recognition methods and systems It contains various theoretical approaches to the recognition problem based on mathematical statistics fuzzy sets morphological methods wavelets syntactic methods genetic algorithms artificial neural networks ontological models etc Most attention is still paid to visual objects recognition however acoustic textual and other objects are also considered Among application areas medical problems are in majority recognition of faces speech signals and textual information processing methods being also investigated

Document Design, Second Edition Miles A. Kimball,Derek G. Ross,2025-03-01 Document Design introduces students to the basic principles and theories of design combining practical advice about the design process with a foundation in visual rhetoric and usability Most books on document design lean toward either theory or practice This book offers a balanced approach theoretically informed practice that introduces a working vocabulary to help students become reflective practitioners able not only to create effective designs but also to explain why and how they made their design choices Derek G Ross and Miles A Kimball hope to give students the foundation they need to make design decisions in any rhetorical situation Students will learn to negotiate between the needs of both users and clients to consider the nuances of audience purpose and context Hitting the Ethanol Blend Wall United States.
