Crime and No Punishment Marie Gottschalk, 2025-11-18 How a focus on street crime has allowed corporate malfeasance to grow and why understanding both

together is key to a true picture of violence in America Provided by publisher Law Enforcement in the Age of Black Lives Matter Dwayne A. Mack, Sandra E. Weissinger, 2017-12-29 There is a reason why people claim great respect for officers of the law the job by description is hard if not deadly It takes a certain kind of person to accept the consequences of the job seeing the very worst situations on a regular basis and knowing that one's life is on the line every hour of every day Working in law enforcement is emotionally and psychologically draining It affects these public servants both on and off the job Said plainly shaking an officers hand when you see them or posting a sign in the front yard that reads Support the Badge is lip service Even going as far as to donate money to a crowdsourcing fundraising site does little to support the long term professional development needs of officers These are surface level signs of solidarity and do little in terms of showing respect for the job and those who do it For those who want to do more this text provides reasons and a rationale for doing better by these public servants Showing respect does not mean that one agrees with whatever another person or institution claims to be the right way Showing respect and admiration means that we charge individuals to live up to their fullest potentials and integrate innovation wherever possible In the case of policing in the era of Black Lives Matters policing as usual simply is not an option any longer It is disrespectful to both the officers and those who are being policed to rest on the laurels of past policing tactics As we enter a time period in which police interactions are recorded dash cams or body cams for example and new populations are being targeted Latinx people there is much to learn about what is working and what is not

Guidelines for Investigating Officer-Involved Shootings, Arrest-Related Deaths, and Deaths in Custody Darrell L. Ross, Gary M. Vilke, 2017-07-20 As unrest over officer involved shootings and deaths in custody takes center stage in conversations about policing and the criminal justice system Guidelines for Investigating Officer Involved Shootings Arrest Related Deaths and Deaths in Custody addresses critical investigation components from an expert witness perspective providing the insights necessary to ensure a complete investigation Investigating a custodial death or an officer involved in a shooting presents unique and complex issues estate community judicial agency involved officer and public policy interests are all at stake These types of deaths present various emerging medical psychological legal and liability technical and investigatory issues that must be addressed through a comprehensive investigation This book is ideal for students in criminal investigation death investigation crime scene investigation and special topic courses in custodial deaths and officer involved shootings as well as for death investigators law enforcement officers police administrators and attorneys **Unarmed and Dangerous** Jon Shane, Zoë Swenson, 2018-07-17 There is tremendous controversy across the United States and beyond when a police officer uses deadly force against an unarmed citizen but often the conversation is devoid of contextual details These details matter greatly as a matter of law and organizational legitimacy In this short book authors Jon Shane and Zo Swenson offer a comprehensive analysis of the first study to use publicly available data to reveal the context in which an officer used deadly force against an unarmed citizen Although any police shooting even a justified shooting is not a desired outcome often

termed lawful but awful in policing circles it is not necessarily a crime The results of this study lend support to the notion that being unarmed does not mean not dangerous in some ways explaining why most police officers are not indicted when such a shooting occurs The study's findings show that when police officers used deadly force during an encounter with an unarmed citizen the officer or a third person was facing imminent threat of death or serious injury in the vast majority of situations Moreover when police officers used force their actions were almost always consistent with the accepted legal and policy principles that govern law enforcement in the overwhelming proportion of encounters as measured by indictments Noting the dearth of official data on the context of police shooting fatalities Shane and Swenson call for the U S government to compile comprehensive data so researchers and practitioners can learn from deadly force encounters and improve practices They further recommend that future research on police shootings should examine the patterns and micro interactions between the officer citizen and environment in relation to the prevailing law The unique data and analysis in this book will inform discussions of police use of force for researchers policymakers and students involved in criminal justice public policy and policing
