millennials are the youngest and on several occasions the largest generation at work today In this first comprehensive book with discerning research Subramanian Kalpathi turns the modern workplace on its head and asks pressing questions about what makes this raring to go generation tick With case studies of millennial organizations and interviews with over 100 achievers The Millennials will give you an informed view of how the future will look by explaining the goals motivations and dreams of the people who will run it *Captured* Phillip Toner,Michael Rafferty,2024-08-01 Four decades ago faced with a series of economic political and social crises business and government leaders in Australia and many other nations were convinced by a well organised ideological insurgency of the need for what at first was presented as a series of technical changes in economic policy However neoliberalism quickly became a revolutionary agenda for re ordering the social democratic state *Captured* How neoliberalism transformed the Australian state directs attention to the central role of state power not just to remake markets but also to remake a broad swathe of political life social policy and citizenship In seeking to undermine the power of organised labour and unleash market capitalism neoliberalism promised a surge of competition productivity and common prosperity For the wealthy few this has indeed been an historically unprecedented time of capital accumulation but for most the results have been profoundly disappointing Today neoliberalism is in crisis We are living through an age of great instability disillusionment and despair Inequality of income and wealth has been rising a majority of workers have experienced long term declining relative living standards corporate political and market power has reached historic levels and younger generations are increasingly giving up the expectation of attaining the living standards of their parents The status of prevailing neoliberal ideas and policy is in increasing disarray But without a coherent understanding of the ideas and interests driving neoliberalism many people have turned to incoherent populism for an explanation and salvation and failing that even to forms of nihilism Disillusion and anxiety constitute the dominant mood among the economic and policy elites within Australia and internationally *Captured* presents a series of case studies from leading public policy experts building critical new insights into the malaise that has characterised the neoliberal era This book tells the story of how a small group of economists and lobby groups with a universalising agenda of radical change used neoliberalism to transform the state and of the destructive effects of those policies on everyday life *Captured* includes critical accounts of neoliberal policy and speculates on the likely future of neoliberalism as a form of political power and governmentality in Australia *The Locked Safe: A Family Memoir* Miriam E. David,2024-06-19 This family memoir is my back story A Locked Safe with 5 Nazi passports was found after my mother died in 1996 My father had died 16 years earlier Although we knew he was a German Jewish professional engineer fleeing Nazism in 1936 we did not know the details of how his family fled The

help of my mother's family the Leas was essential. They had fled from pogroms in Ukraine, Russia, in the late nineteenth century. Some were also caught up with Japanese internment camps in China, illustrating the diasporic nature of my family. My father, his elder brother, and father were also interned by the British in 1940-1941. I look forward to not only my generation as the so-called second generation from the Holocaust but also the third generation, specifically my daughter Charlotte Reiner Hershman. Although we tell a unique story of one family, that story of migration seeking asylum or refuge and being exiled is a very frequent tale nowadays. In excavating my parents' backgrounds and their influences on me and Charlotte, we show the long-term psychological and social effects on our lives and possibly on future generations. **Fifth**

The vision statement of the Wikimedia Foundation states: "Imagine a world in which every single human being can freely share in the sum of all knowledge." Libraries need not see Wikipedia as competition; rather, failing to leverage its omnipresence in the online world constitutes a missed opportunity. As a senior program officer at OCLC, Proffitt has encouraged collaboration between Wikipedia and cultural heritage institutions, leading to increased visibility and user engagement at participating organizations. Here she brings onboard a raft of contributors from the worlds of academia, archives, libraries, and members of the volunteer Wikipedia community who together point towards connecting these various communities of knowledge. This book will inspire libraries to get involved in the Wikipedia community through programs and activities such as hosting editathons, contributing content, and helping to bridge important gaps in Wikipedia, ensuring that library content is connected through the world's biggest encyclopedia, working with the Wikipedia education community, and engaging with Wikipedians as allies in a quest to expand access to knowledge. Speaking directly to librarians, this book shows how libraries can partner with Wikipedia to improve content quality while simultaneously ensuring that library services and collections are more visible on the open web. *A History of Ambition in 50 Hoaxes* Gale Eaton, 2016-09-06. The con artists in this book pursued a variety of ambitions: making money, winning wars, mocking authority, finding fame, trading an ordinary life for a glamorous one, but they all chose the lowest, fastest road to get there.
