Mayo, 2018-09-20 Mounting failures of replication in social and biological sciences give a new urgency to critically appraising proposed reforms This book pulls back the cover on disagreements between experts charged with restoring integrity to science It denies two pervasive views of the

role of probability in inference to assign degrees of belief and to control error rates in a long run If statistical consumers are unaware of assumptions behind rival evidence reforms they can't scrutinize the consequences that affect them in personalized medicine psychology etc The book sets sail with a simple tool if little has been done to rule out flaws in inferring a claim then it has not passed a severe test Many methods advocated by data experts do not stand up to severe scrutiny and are in tension with successful strategies for blocking or accounting for cherry picking and selective reporting Through a series of excursions and exhibits the philosophy and history of inductive inference come alive Philosophical tools are put to work to solve problems about science and pseudoscience induction and falsification Nuclear Science Abstracts, 1965

**New Destinations of Empire** Emily Mitchell-Eaton, 2024-11-01 In 1986 the Compact of Free Association marked the formal end of U S colonialism in the Republic of the Marshall Islands while simultaneously re-entrenching imperial power dynamics between the two countries The U S RMI Compact at once enshrined exclusive U S military access to the islands and established the right of visa free migration to the United States for Marshallese citizens leading to a Marshallese diaspora whose largest population resettled in the seemingly unlikely destination of Springdale Arkansas An all white town by design for much of the twentieth century Springdale having nearly quadrupled in population since 1980 has been remade by Marshallese as well as Latinx immigration Through ethnographic policy based and archival research in Gu Han Saipan Hawaii Arkansas and Washington D C *New Destinations of Empire* tells the story of these place based transformations revealing how U S empire both causes and constrains mobility for its subjects shaping migrants experiences of racialization citizenship and belonging in new destinations of empire In examining two spatial processes imperialism and migration together Emily Mitchell Eaton reveals connections and flows between presumably distant remote sites like Arkansas and the Marshall Islands showing them to be central to the United States most urgent political issues immigration racial justice militarization and decolonization *One Nation Under Gold: How One Precious Metal Has Dominated the American Imagination for Four Centuries* James Ledbetter, 2017-06-13 *One Nation Under Gold* examines the countervailing forces that have long since divided America whether gold should be a repository of hope or a damaging delusion that has long since derailed the rational investor Worshipped by Tea Party politicians but loathed by sane economists gold has historically influenced American monetary policy and has exerted an often outsized influence on the national psyche for centuries Now acclaimed business writer James Ledbetter explores the tumultuous history and larger than life personalities from George Washington to Richard Nixon behind America's volatile relationship to this hallowed metal and investigates what this enduring obsession reveals about the American identity Exhaustively researched and expertly woven *One Nation Under Gold* begins with the nation's founding in the 1770s when the new republic erupted with bitter debates over the implementation of paper currency in lieu of metal coins Concerned that the colonies' thirteen separate currencies would only lead to confusion and chaos some Founding Fathers believed that a national currency would not only unify the fledgling nation but provide a perfect solution

for a country that was believed to be lacking in natural silver and gold resources Animating the Wild West economy of the nineteenth century with searing insights Ledbetter brings to vivid life the actions of Whig president Andrew Jackson one of gold's most passionate advocates whose vehement protest against a standardized national currency would precipitate the nation's first feverish gold rush Even after the establishment of a national paper currency the virulent political divisions continued reaching unprecedented heights at the Democratic National Convention in 1896 when presidential aspirant William Jennings Bryan delivered the legendary Cross of Gold speech that electrified an entire convention floor stoking the fears of his agrarian supporters While Bryan never amassed a wide enough constituency to propel his cause into the White House America's stubborn attachment to gold persisted wreaking so much havoc that FDR in order to help rescue the moribund Depression economy ordered a ban on private ownership of gold in 1933 In fact so entrenched was the belief that gold should uphold the almighty dollar it was not until 1973 that Richard Nixon ordered that the dollar be delinked from any relation to gold completely overhauling international economic policy and cementing the dollar's global significance More intriguing is the fact that America's exuberant fascination with gold has continued long after Nixon's historic decree as in the profusion of late night television ads that appeal to goldbug speculators that proliferate even into the present One Nation Under Gold reveals as much about American economic history as it does about the sectional divisions that continue to cleave our nation ultimately becoming a unique history about economic irrationality and its influence on the American psyche

Pandemic Police Power, Public Health and the Abolition Question Tryon P. Woods,2022-02-17 This book critically explores how police power manifested beyond criminal law into the field of public health during the pandemic Whilst people were engaged with anti police violence protests particularly in the US they were

being policed openly and notoriously by the government and medical science in the public health arena The book explores how public health policing might be an abuse of constitutional power and encourages the abolition question to be applied consistently to the state's discourse in the area of public health as black people the world over continue to bear a disproportionate cost burden for public health policies The chapters explore contemporary policing in terms of the historical context of slavery the growth of the police and prison abolition movement and how this should be applied more widely and how police power operates throughout society beyond the criminal justice system in finance technology housing education and in medicine and health science It seeks to re-examine our relationship to health sovereignty and the police power more fundamentally It provides insights into the convergence of policing and social control of humans and argues that the most normative response is abolition

**Assessing Health Outcomes Among Veterans of Project SHAD (Shipboard Hazard and Defense)** National Academies of Sciences, Engineering, and Medicine, Institute of Medicine, Board on the Health of Select Populations, Committee on Shipboard Hazard and Defense II (SHAD II), 2016-01-15 Between 1963 and 1969 the U.S. military carried out a series of tests termed Project SHAD Shipboard Hazard and Defense to evaluate the vulnerabilities of U.S. Navy ships to chemical and biological warfare agents These tests involved use of active chemical and biological agents stimulants tracers and decontaminants Approximately 5 900 military personnel primarily from the Navy and Marine Corps are reported to have been included in Project SHAD testing In the 1990s some veterans who participated in the SHAD tests expressed concerns to the Department of Veterans Affairs VA that they were experiencing health problems that might be the result of exposures in the testing These concerns led to a 2002 request from VA to the Institute of Medicine IOM to carry out an epidemiological study of the health of SHAD veterans and a comparison population of veterans who had served on similar ships or in similar units during the same time period In response to continuing concerns Congress in 2010 requested an additional IOM study This second study expands on the previous IOM work by making use of additional years of follow up and some analysis of diagnostic data from Medicare and the VA health care system

Sand, Snow, and Stardust Gretchen Heefner, 2025-05-05 A vivid tour of US military efforts to understand survive and command harsh environments worldwide and beyond Deserts the Arctic outer space these extreme environments are often seen as inhospitable places at the edges of our maps But from the 1940s through the 1960s spurred by the diverse and unfamiliar regions the US military had navigated during World War II the United States defense establishment took a keen interest in these places dispatching troops to the Aleutian Islands North Africa the South Pacific and beyond To preserve the country's status as a superpower after the war to pave runways and build bridges engineers had to understand and then conquer dunes permafrost and even the surface of the moon Sand Snow and Stardust explores how the US military generated a new understanding of these environments and attempted to master them intending to cement America's planetary power Operating in these regions depended as much on scientific and cultural knowledge as on military expertise and technology From General George S Patton learning the hard

way that the desert is not always hot to the challenges of constructing a scientific research base under the Arctic ice to the sheer implausibility of modeling Martian environments on Earth Gretchen Heefner takes us on a wry expedition into the extremes and introduces us to the people who have shaped our insight into these extraordinary environments Even decades after the first manned space flight plans for human space exploration and extraplanetary colonization are still based on what we know about stark habitats on Earth An entertaining survey of the relationship between environmental history and military might *Sand Snow and Stardust* also serves as a warning about the further transformation of the planet whether through desertification melting ice caps or attempts to escape it entirely *The Power of Citizen Seismology: Science and Social Impacts* Remy Bossu, Kate Huihsuan Chen, Wen-Tzong Liang, 2021-01-04 *Murder in the Stacks* David Dekok, 2014-09-02 On Nov 28 1969 Betsy Aardsma a 22 year old graduate student in English at Penn State was stabbed to death in the stacks of Pattee Library at the university's main campus in State College For more than forty years her murder went unsolved though detectives with the Pennsylvania State Police and local citizens worked tirelessly to find her killer The mystery was eventually solved after the death of the murderer This book will reveal the story behind what has been a scary mystery for generations of Penn State students and explain why the Pennsylvania State Police failed to bring her killer to justice More than a simple true crime story the book weaves together the events culture and attitudes of the late 1960s memorializing Betsy Aardsma and her time and place in history *Science, Technology and Innovation in BRICS Countries* Swapan Kumar Patra, Mammo Muchie, 2020-06-09 The term BRICS Brazil Russia India China and South Africa is gaining global attention both in scholarly and popular discourse BRICS countries are crucial in terms of their vast areas huge population and have massive economic potential These countries are also categorized as developing countries and are aspiring to be considered as developed countries There is commonality among these countries in that they have similar issues and problems which may require common solutions *Science Technology and Innovation in BRICS Countries* examines whether more emphasis on Science Technology and Innovation STI capability building could be the solution to these countries economic upgradation and poverty reduction This book is a collection of various Science Technology and Innovation STI issues of BRICS economics and will be of interest to general readers scholars working in this field as well as policy makers all over the globe The contributions come from various scholars across the globe who have published their BRICS economics research in a special issue of the *African Journal of Science Technology Innovation and Development*
