details about the man or his history or perhaps they are not able to The narrator ultimately finds himself in the position of staying overnight at Frome s house in order to escape a winter storm and from there he observes Frome and his private circumstances which he shares and which triggers other people in town to be more forthcoming with their own knowledge and impressions The novel is framed by the literary device of an extended flashback The prologue which is neither named as such nor numbered opens with an unnamed male narrator spending a winter in Starkfield while in the area on business He spots a limping quiet man around the village who is somehow compelling in his demeanor and carriage This is Ethan Frome who is a local fixture of the community having been a lifelong resident Frome is described as the most striking figure in Starkfield the ruin of a man with a careless powerful look in spite of a lameness checking each step like the jerk of a chain Curious the narrator sets out to learn about him He learns that Frome s limp arose from having been injured in a smash up twenty four years before but further details are not forthcoming and the narrator fails to learn much more from Frome s fellow townspeople other than that Ethan s attempt at higher education decades before was thwarted by the sudden illness of his father following an injury forcing his return to the farm to assist his parents never to leave again Because people seem to not wish to speak other than in vague and general terms about Frome s past the narrator s curiosity grows but he learns little more
