Meet Me at the Moon Tree Shivaun Plozza, 2023-07-04 Dad said everything is magic and science is just figuring out how magic works For Carina Sugden nothing is more special than a moon tree a tree grown from the seeds taken on the Apollo 14 mission into space Her father taught her everything she knows about them But he passed away before they found one together When Mum relocates the family to the Otway Ranges Carina becomes determined to find a moon tree on her own Like a scientist she carefully searches the forest behind her new house But after a mysterious encounter with a black cockatoo Carina realises there s magic in this forest And if magic exists anything is possible like seeing her dad one last time
