Good College Essay Example

My favorite book has no author. It has no chapters and little text. Some would say this book has no plot and no characters, but I know otherwise. This book actually reflects the physical and political history of our world, covers hundreds of nations, thousands of ethnic groups, and billions of people.

This book is the 1987 Rand McNally Universal World Atlas, a tall green volume with a worn cover and loose binding. I am enamored of almost all atlases and even individual maps, but what makes this particular atlas so special is the impact it had on me as a young child. I vividly remember discovering it for the first time on a bookshelf in our house. When I opened it, I discovered pages upon pages of maps – maps of every region and country in the world and every U.S. state and Canadian province. I was entranced. I spent hours pouring over the pages of the atlas that first day. I wanted know more about where I fit in the world.

As my interest in geography grew, I amassed a collection of atlases and other books related to geography. My other favorite was a world factbook that had a small dossier on each country. I remember discovering, much to my surprise, that various country borders shown in the 1998 factbook were different from the ones in my 1987 atlas. Germany was no longer divided, Czechoslovakia no longer united, and a tiny country called Eritrea had popped up on what used to be Ethiopia's coastline. My curiosity about these changes led me to begin reading history books, and I soon learned the two fields complemented each other well. When I read about the American Civil War, I often would open my atlas to the map of Virginia. And when our family visited Gettysburg, Antietam, and other Civil War battlefields, I intensely studied the maps of these battles.

I also began to notice how geography shaped current world events. Every four years, I tracked the presidential electoral votes on a map of my own, and every two years I made lists of the key congressional districts and Senate seats. I started following the progress of the American campaigns in Afghanistan and Iraq in my atlas. To find out more about world events, I began to voraciously read The Washington Post, The New York Times, and The Economist. My interest in geography also stimulated my interest in languages. After discovering that so many places had Spanish as their native tongue, I decided learning the language was a necessity. And when I read about the increasing economic and political power of China in The Economist, I realized that knowledge of Mandarin Chinese would be a valuable skill in our globalizing world, so I endeavored to learn Mandarin as well.

Ever since I was very young, I loved reading. I have read many powerful and influential books (fiction and non-fiction) that have helped shaped the way I look at the world, but none had been more important than my first atlas. I still return to it regularly and imagine I always will.

Joseph M. Hawes, Elizabeth I. Nybakken, 2001 The internal dynamics of families have altered dramatically as the family has gradually shifted from a unit of economic production to a collection of individuals in pursuit of different goals Taking examples from the eighteenth through the twentieth centuries this eclectic reader illuminates changes in the American family and presents some of the methods and approaches used to study families Linking family patterns with changing social circumstances Family and Society in American History considers husband wife and parent child relationships in light of language usage gender roles legal structures and other contexts For example new legal attitudes toward divorce emerged as

marriage came to be seen as a site for individual satisfaction Marital fertility declined as American society modernized and pregnancy and childbirth came to be seen as medical rather than family issues Schools and other institutions of the state absorbed functions formerly performed by the family and women s economic contributions to the family disappeared from view as the social values of the early republic divided the male work from the female home sphere In the twentieth century a new domestic role for men Mr Do It Yourself developed in the wake of suburbanization In addition to identifying trends within the dominant culture contributors consider the experiences of ethnic and immigrant families reassessing generational conflict in Italian Harlem comparing the attitudes of male and female Mexican migrant workers in Kansas and showing how Chinese immigrant women targeted for rescue by Presbyterian mission workers took advantage of the gap between Chinese and American culture to increase their leverage in family and marital relationships A diverse compendium of family life Family and Society in American History provides an intriguing commentary on the permeability of social structures and interpersonal behavior **Academy and Literature** ,1889 *“The” Library of Cornell University* Cornell University Library,1882
