The Partisan Next Door Ethan C. Busby, Adam J. Howat, Jacob E. Rothschild, Richard M. Shafranek, 2021-09-29 In the United States politics has become tribal and personalized The influence of partisan divisions has extended beyond the political realm into everyday life affecting relationships and workplaces as well as the ballot box To help explain this trend we examine the stereotypes Americans have of ordinary Democrats and Republicans Using data from surveys experiments and Americans own words we explore the content of partisan stereotypes and find that they come in three main flavors parties as their own tribes coalitions of other tribes or vehicles for political issues These different stereotypes influence partisan conflict people who hold trait based stereotypes tend to display the highest levels of polarization while holding issue based stereotypes decreases polarization This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity a turn to what we call responsible partisanship

The Social Life of Prayer Andreas Bandak, 2021-03-09 This book brings the theme of prayer into anthropological discussion Across diverse significant ethnographic case studies five anthropologists attend to prayers and how they are performed and seen to intervene in the social world The studies include Pentecostals in Zambia Charismatic Christians in Ghana Protestants in Scotland Eastern Orthodox Christians in Romania and Catholics in Syria Across these ethnographic cases the book argues that focusing on the social life of prayer offers a significant way to engage with matters close to people Prayers are a way to map affect and the affective relationships people hold in what they are oriented towards and care about Taking its cue from Marcel Mauss the book invites us to go beyond the individual and see how prayers always point to a broader social landscape of obligation and affective investment Focusing on the social life of prayers the book posits accordingly entices a particular form of situated comparison of diverse Christian traditions that pushes the scholarly conversation on Christianity to consider central questions of agency responsibility and subjectivity Taking up prayer as the object of study this book offers novel anthropological perspectives on Christian life and practice The chapters in this book were originally published a special issue of Religion

sustainable path forward in a rapidly changing world *The SAGE Handbook of Applied Social Psychology* Kieran C. O'Doherty, Darrin Hodgetts, 2019-01-14 In the present epoch of global change movement interconnection and the intensification of social issues within and across many societies applied social psychology is more relevant than ever The SAGE Handbook of Applied Social Psychology offers an overview of the field and the disparate and evolving approaches Through an international team of contributors the handbook brings prominent research literature together and organises it around ten key areas Part 01 Culture race indigeneity Part 02 Gender Sexuality Part 03 Politics Part 04 Health and mental health Part 05 Work Part 06 Ageing Part 07 Communication Part 08 Education Part 09 Environment Part 10 Criminal Justice Law Crime This handbook is a uniting and invigorating resource for the field of Applied Social Psychology **Everyday Peace** Roger Mac Ginty, 2021-06-17 An exploration of how so called ordinary people can disrupt violent conflict and forge peace In this pathbreaking book Roger Mac Ginty explores everyday peace or how individuals and small groups can eke out spaces of tolerance and conciliation in conflict ridden societies Drawing on original material from the Everyday Peace Indicators project he blends theory and concept building together with contemporary and comparative examples Unusual for the disciplines of peace and conflict studies as well as international relations Everyday Peace also utilizes personal diaries and memoirs from World Wars One and Two The book unpacks the core components of everyday peace and argues that it is constructed from a mix of sociality reciprocity and solidarity This exploration of bottom up and community level approaches to peace challenges the usual concentration on top down approaches to peace advanced by governments and international organizations Indeed the book goes to the lowest level of social organization individuals families and small groups of friends and colleagues and looks at everyday interaction in workplaces the stairwells of apartment buildings and the queue for public transport Mac Ginty sees peace and conflict as being embodied lived and experienced and constructs a multi layered definition of peace Importantly he applies his evidentiary base of micro acts that constitute everyday peace to societies that have emerged out of conflict and have not experienced recidivism on a large scale Unlike most who focus on top down processes he demonstrates that what matters is the interaction between top down and bottom up peace and how in an ideal scenario they can have a symbiotic relationship By focusing on how the small scale can have big and lasting effects Everyday Peace will reshape our understanding of how peace comes about *Managing Business Family Dynasties* Tom A. Rüsen, Heiko Kleve, Arist von Schlippe, 2021-10-15 This book deals with dynastic business families Such families are characterized by a circle of owners comprising more than 50 family members which typically face specific issues and challenges for which there has been little research knowledge and practical approaches until now The book presents results and findings from a special research project on big family management where 7 representatives of dynastic families from Germany were studied over a 3 year period The result was the identification of six topic areas that management in these business families has to deal with At the same time the study observes that dynastic business families hardly follow the logic

of classic families anymore but can rather be understood as networks with common family backgrounds The study also reveals that a large number of business families are heading for large shareholder groups due to changed inheritance practices The contents outlined here provide an orientation framework for the growing business family **Education**

Reimagined: The Impact of Advanced Technologies on Learning Mohammad Khalil, Mohammed Saqr, Sonsoles López-Pernas, Isabel Hilliger, 2024-12-18 The last decade has seen significant progress in technology particularly in the fields of Artificial Intelligence and machine learning which have had a profound impact on numerous industries including education The integration of technology in education has fundamentally altered the landscape of learning where data becomes a crucial component to provide insights into for example how students learn when and where additional support is needed Employing educational data is proving to be a catalyst for innovation in education opening up new possibilities for students and educators alike The focus of this Research Topic is to explore the impact of recent technological innovations and advances such as AI powered Chatbots Learning Analytics Virtual and Augmented Reality and remote and virtual labs on different education systems both from the educational and the psychological perspective The scope is twofold on the one hand examining the use of these advanced technologies in learning and teaching activities and on the other hand teaching students about these technologies and understanding the impact of including them in new education policies and curricula including teaching of AI data science analytics and the ethical implications of data The Research Topic seeks to provide insightful and thought provoking perspectives on how technology is being utilized to enhance the learning experience for students of all ages Both in higher education and K12 education and their transition to higher education By gathering experts in psychology education and technology this Research Topic aims to present research findings and best practices and to stimulate discussions on the role of technology in shaping the future of education The ultimate objective is to inspire innovation and to improve the education of future generations through advanced technologies Arguing Development Policy Raymond Apthorpe, Des Gasper, 2014-06-23 This collection shows how policy discourses in the fields of national and international developments are constructed and operate and how they can be analysed Dominant discourses screen out certain aspects they frame issues to include some matters and typically exclude important others More generally different policy discourses construct the world in distinctive ways through language that requires deconstruction and careful review

The Oxford Handbook of International Refugee Law Cathryn Costello, Michelle Foster, Jane McAdam, 2021 Provides a state of the art comprehensive analysis of the field of international refugee law Global in scope with 10 chapters focusing in detail on specific regions Critiques the status quo and sets the agenda for future academic research Book jacket African Schools as Enabling Spaces Vanessa Scherman, Linda Liebenberg, 2023-03-31 Using African schools as case studies this book presents an implementation framework that can be used by schools internationally to drive social change and support their role as enabling spaces allowing learners to thrive Recognising the increase in demands violent conflicts lack of stability and

social strain prevalent within the current African school system this book covers the challenges that negatively impact children's development by understanding and presenting a framework that ensures a holistic social and educational support system can be created for students. Featuring contributions from a broad range of leading scholars, the book ultimately addresses the critical need in academic and practice research for the importance of schools in building civil societies. Arguing for the importance of schools as places of stability, social inclusivity, and communities of care, this book will have direct relevance to academics, researchers, and postgraduate students in the field of education policy, international and comparative education, and character education. Those working in school leadership, management, and administration environments will also benefit from this volume.

Chemoinformatics and Bioinformatics in the Pharmaceutical Sciences Navneet Sharma, Himanshu Ojha, Pawan Raghav, Ramesh K. Goyal, 2021-05-21. Chemoinformatics and Bioinformatics in the Pharmaceutical Sciences brings together two very important fields in pharmaceutical sciences that have been mostly seen as diverging from each other: chemoinformatics and bioinformatics. As developing drugs is an expensive and lengthy process, technology can improve the cost efficiency and speed at which new drugs can be discovered and tested. This book presents some of the growing advancements of technology in the field of drug development and how the computational approaches explained here can reduce the financial and experimental burden of the drug discovery process. This book will be useful to pharmaceutical science researchers and students who need basic knowledge of computational techniques relevant to their projects. Bioscientists, bioinformaticians, computational scientists, and other stakeholders from industry and academia will also find this book helpful. Provides practical information on how to choose and use appropriate computational tools. Presents the wide intersecting fields of chemo-bio-informatics in an easily accessible format. Explores the fundamentals of the emerging field of chemoinformatics and bioinformatics.

The Nonprofit Sector Walter W. Powell, Patricia Bromley, 2023-05-25. Timely, unique, and definitive, not only chronicles the history of the nonprofit sector but also provides a broad but critical analysis of its current state. Vartan Gregorian, President, Carnegie Corporation of New York. The nonprofit sector has changed in fundamental ways in recent decades. As the sector has grown in scope and size, both domestically and internationally, the boundaries between for-profit, governmental, and charitable organizations have become intertwined. Nonprofits are increasingly challenged on their roles in mitigating or exacerbating inequality. And debates flare over the role of voluntary organizations in democratic and autocratic societies alike. The Nonprofit Sector takes up these concerns and offers a cutting-edge empirical and theoretical assessment of the state of the field. This book, now in its third edition, brings together leading researchers, economists, historians, philosophers, political scientists, and sociologists, along with scholars from communication, education, law, management, and policy schools, to investigate the impact of associational life. Chapters consider the history of the nonprofit sector and of philanthropy, the politics of the public sphere, governance, mission, and engagement, access and inclusion, and global perspectives on nonprofit organizations. Across this comprehensive range of topics, The Nonprofit Sector

makes an essential contribution to the study of civil society Praise for previous editions Takes a decidedly multidisciplinary approach invaluable Journal of Policy Analysis and Management A major contribution to the field Social Forces

Preston, 2014-01-22 Through compelling analysis of popular culture high culture and elite designs in the years following the end of the Second World War this book explores how Britain and its people have come to terms with the loss of prestige stemming from the decline of the British Empire The result is a volume that offers new ideas on what it is to be British **Cop Shows** Roger Sabin, Ronald Wilson, Linda Speidel, 2015-03-23 From cops who are paragons of virtue to cops who are as bad as the bad guys from surly loners to upbeat partners from detectives who pursue painstaking investigation to loose cannons who just want to kick down the door the heroes and anti heroes of TV police dramas are part of who we are They enter our living rooms and tell us tall tales about the social contract that exists between the citizen and the police Love them or loathe them according to the ratings we love them they serve a function They ve entertained informed and sometimes infuriated audiences for more than 60 years This book examines *Dragnet* *Highway Patrol* *Naked City* *The Untouchables* *The F B I* *Columbo* *Hawaii Five O* *Kojak* *Starsky Hutch* *Hill Street Blues* *Cagney Lacey* *Miami Vice* *Law Order* *Homicide* *Life on the Street* *NYPD Blue* *CSI* *The Shield* *The Wire* and *Justified* It s time to take another look at the perps the vics and the boys and girls in blue and ask how their representation intersects with questions of class gender sexuality and race What is their socio cultural agenda What is their relation to genre and televisuality And why is it that when a TV cop gives a witness his card and says call me that witness always ends up on a slab **Integral Development** Dr Alexander Schieffer, Professor Ronnie Lessem, 2014-05-28 Alexander Schieffer and Ronnie Lessem introduce a groundbreaking development framework and process to address the most burning issues that humanity faces While conventional top down outside in development has reached a cul de sac a new integral form of development is emerging around the world Integral Development uniquely articulates this emergent approach and invites us to fully participate in this process The integral approach has been researched and framed over decades of in depth experience in transformative development education and practice all over the world It uniquely combines four mutually reinforcing perspectives nature and community culture and spirituality science systems and technology and enterprise and economics Conventional development theory and practice has prioritized the latter two perspectives neglecting the former two This has caused massive imbalances in today s world The four interconnected perspectives allow for a transformative and integrated engagement with core development issues in a way that is locally relevant and globally resonant Throughout

the practical impact of Integral Development is brought to life through highly innovative cases from around the globe drawing on the authors first hand experience This makes the book a living demonstration of the power of this pioneering approach Integral Development shows how individual organizational and societal developments need to be interconnected to release a society s full potential It shifts the responsibility for large scale development from often distant experts and organizations to each individual community enterprise and institution within the society It is essential reading and a call to action for everyone concerned with the current state of local and global development

Policy and Gay, Lesbian, Bisexual, Transgender and Intersex Students Tiffany Jones, 2014-10-21 This book addresses policy research on homophobic and transphobic bullying in schools It covers quantitative and qualitative research into policy impacts for gay lesbian bisexual transgender and intersex students It draws on a large scale Australian study of the impacts of different kinds of policy at the national state sector and school level The study covers over 80 policies interviews with key policy informants and survey data from 3 134 GLBTIQ students Since new guidelines were released by UNESCO homophobic and transphobic bullying in schools has become a key area of interest around the world There has been much pressure on educational leadership to engage with these issues since the UN released international human rights legislation on sexual orientation and gender identity that have implications for student rights The book presents statistically significant correlations between specific types of state and school level education policies that explicitly named homophobia GLBTIQ student issues and lowered incidence of homophobic bullying lowered risk of suicide and self harm for these students It includes stories from policy makers on how the policies came to be through lawsuits ministerial inquiries and political activism right through to the stories of students themselves and how they individually felt the impacts of policies or policy lacks International contexts of homophobic and transphobic bullying are discussed as well as recent transnational work in this field The book considers the different types of collaborations that can lead to further policy development the transferability of the research and some of the benefits and problems with transnational policy adoptions

Epistemological Dimensions of Evolutionary Psychology Thiemo Breyer, 2014-11-04 As psychology and philosophy arose as answers to the eternal question of how the mind works evolutionary psychology has gained ground over recent years as a link between cognitive behavioral and natural science theories of the mind This provocative field has also gathered a wide range of criticisms from attributing too much autonomy to the brain to basing itself on faulty assumptions about our prehistoric past Epistemological Dimensions of Evolutionary Psychology reframes its discipline for the contemporary era correcting common misconceptions and mediating between different schools of thought By focusing on the nature and limits of knowledge and reasoning the essence of epistemology contributors offer fresh insights at the intersection of human cognitive abilities as adaptations and our self perception of knowledge including evolutionary perspectives on altruism depression or the phasing out of human sacrifice This diversity strengthens and vindicates the field as evinced by thought provoking dispatches such as Toward a cognitive

philosophy of science Evolutionary media psychology and its epistemological foundation The meme meme revisited Depression as an adaptation Like me a homophily based account of human culture Preparedness to learn about the world evidence from infant research An engaging and often controversial testament to the combined power of evolution and logic Epistemological Dimensions of Evolutionary Psychology will intrigue philosophers as well as psychologists in a variety of subdisciplines
