Exercices de Style. Exercises in Style ... Translated by Barbara Wright Raymond Queneau, Barbara Wright, 1958

Translating Humour Jeroen Vandaele, 2016-04-08. It is all too often assumed that humour is the very effect of a text. But humour is not a perlocutionary effect in its own right, nor is laughter. The humour of a text may be as general a characteristic as a serious text's seriousness. Like serious texts, humorous texts have many different purposes and effects. They can be subdivided into specific subgenres with their own perlocutionary effects, their own types of laughter or even other reactions. Translation scholars need to be able to distinguish between various kinds of humour or humorous effect when comparing source and target texts, especially since the notion of effect pops up so frequently in the evaluation of humorous texts and their translations. In this special issue of *The Translator*, an attempt is made to delineate

types of humorous effect through careful linguistic and cultural analyses of specific examples and or the introduction of new analytical tools For a translator who is both a receiver of the source text and sender of the target text such analyses and tools may prove useful in grasping and pinning down the perlocutionary effect of a source text and devising strategies for producing comparable effects in the target text For a translation scholar who is a receiver of both source and target texts the contributions in this issue will hopefully provide an analytical framework for the comparison of source and target perlocutionary effects

Real and Fictional in Twentieth-century French Writing Sam Ferguson,2018 This volume is the first study of the diary in French writing across the twentieth century as a genre which includes both fictional and non fictional works From the 1880s it became apparent to writers in France that their diaries a supposedly private form of writing would probably come to be published strongly affecting the way their readers viewed their other published works and their very persona as an author More than any other Andre Gide embraced the literary potential of the diary the first part of this book follows his experimentation with the diary in the fictional works *Les Cahiers d Andre Walter* 1891 and *Paludes* 1895 in his diary of the composition of his great novel *Le Journal des faux monnayeurs* 1926 and in his monumental *Journal* 1889 1939 1939 The second part follows developments in diary writing after the Second World War inflected by radical changes in attitudes towards the writing subject Raymond Queneau s works published under the pseudonym of Sally Mara 1947 1962 used the diary playfully at a time when the writing subject was condemned by the literary avant garde Roland Barthes s experiments with the diary 1977 1979 took it to the extremes of its formal possibilities at the point of a return of the writing subject Annie Ernaux s published diaries 1993 2011 demonstrate the role of the diary in the modern field of life writing Throughout the century the diary has repeatedly been used to construct an oeuvre and author but also to call these fundamental literary concepts into question
