Experiencing God - Day By Day Jeremy R McCandless, 2012-03-16 What has happened that the modern man and woman no longer seem to have intellectual space for the idea of God? Why is it that often they would wish to ridicule those who believe in God and dismiss all that arises out of that conviction? The purpose of this book is to allow us take a step back and look at the foundations of the Christian faith. In doing so we might see and experience God in the everyday and how one might communicate these ideas to the man and woman in the street.

Lived Institutions as History of Experience Johanna Annola, Hanna Lindberg, Pirjo Markkola, 2023-12-26 This open access book focuses on institutions that were produced and formed by the emerging welfare state. How were institutions experienced by the people who interacted with them? How did institutions as sites of experience shape and structure people's everyday lives? Histories of institutions have mainly focused on the structures and power relations produced by institutional settings. Likewise, despite an extensive historiography of the welfare state, reflections on individuals' experiences of welfare are few. By using lived institutions as its conceptual frame, this edited collection merges the fields of institutional studies, the history of the welfare state, and the novel and vibrant field of the history of experience.

A Cultural History of Work in the Medieval Age Valerie L. Garver, 2020-09-17 Winner of the 2020 PROSE Award for Multivolume Reference. Humanities Work was central to medieval life. Religious and secular authorities generally expected almost everyone to work. Artistic and literary depictions underlined work's cultural value. The vast majority of medieval people engaged in agriculture because it was the only way they could obtain food. Yet their work led to innovations in technology and production and allowed others to engage in specialized labor, helping to drive the growth of cities. Many workers moved to seek employment and to improve their living conditions. For those who could not work, charity was often available, and many individuals and institutions provided forms of social welfare. Guilds protected their members and created means for the transmission of skills. When they were not at work, medieval Christians were to meet their religious obligations, yet many also enjoyed various pastimes. A consideration of medieval work is therefore one of medieval society in all its creativity and complexity, and that is precisely what this volume provides. *A Cultural History of Work in the Medieval Age* presents an overview of the period with essays on economies, representations of work, workplaces, work cultures, technology, mobility, society, politics, and leisure.

Rationalism** Eugene Callahan, Lee Trepanier,2018-05-24 In the first half of the twentieth century the rationalist tide had reached its high mark in the arts politics and work But the Holocaust the Gulag and other failures have dimmed the popularity of rationalism However the evidence of those practical failures would not have been as convincing as it was if not for the existence of a theoretical diagnosis of the malady This book compares and contrasts the ideas of some of the leading twentieth century critics of rationalism Hans Georg Gadamer F A Hayek Aurel Kolnai Alasdair MacIntyre Michael Oakshott Michael Polanyi Gilbert Ryle Eric Voegelin and Ludwig Wittgenstein While each can be seen as a critic of rationalism were they each attacking the same thing In what senses did their analyses overlap and in what senses did they differ Clarifying these issues this book will provide important insights into this major intellectual trend of the past

century By including these major thinkers Tradition v Rationalism we see that that these thinkers believed that tradition should still have a place in the world as a repository of wisdom As our lives becomes increasingly dominated by various forms of rationalisms whether political technological economic or cultural we need to ask ourselves whether this is the type of world in which we want to live and if not how can we critique and propose an alternative to it The thinkers in this book provide us a starting point on our journey towards thinking about how we can have a more hopeful humane and brighter future
