**Humanities and Social Sciences** Giorgio Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune's slings and arrows cause inevitably if not incessantly to each and every one of us In mundane life having a sense of humor is seen not only as a positive trait of character but as a social prerequisite without which a person's career and mating prospects are severely diminished if not annihilated However humor is much more than this and so much else In particular humor can accompany cruelty inform it sustain it and exemplify it Therefore in this book we provide a comprehensive reasoned exploration of the vast literature on the concepts of humor and cruelty as these have been tackled in Western philosophy humanities and social sciences especially psychology Also the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common sense concepts in line with the understanding of concepts developed by M Polanyi in the 20th century Thus a thorough nuanced grasp of their complex mutual relationship is established and many platitudes affecting today's received views and scholarship are cast aside Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understands to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society *Research in Education*, 1969 [Resources in Education](#), 1998 **Culture, Precepts, and Social Change in Southeastern Nigeria** Apollos O. **Historical Perspectives on Erklären and Verstehen** Uljana Feest, 2009-12-15 twentieth century literature about the distinction between explanation and understanding. Second, can we do justice to a particular writer's notion of that category by taking at face value what he writes about his own motivation for adopting it? In response to both types of questions there is by now a consensus amongst many historians of science and of philosophy that an intellectual history like other kinds of history has to be careful not to uncritically adopt actors' categories and, more generally, even the actors' own thinking about a particular issue has to be contextualized vis-à-vis their other intellectual commitments and interests as well as the complex conditions that make the totality of their commitments possible. Such conditions include cognitive as well as practical, institutional and cultural factors. The articles in this volume respond to these challenges in several ways. For example, one author, Christopher Pincock, seeks to read some of the nineteenth-century philosophical writings about *Erklären* and *Verstehen* as standing for a more fundamental problem which he terms the problem of the unity of experience.
