Walt Whitman's Language Experiment

James Perrin Warren, 1990-10-01 Combining intellectual history with literary analysis this study of Whitman s language experiment from 1855 to 1892 offers a refreshing new look at his theory of language especially the English language in America as an expression of a national spirit and relates that theory to the language and style of Whitman s major poems and essays Whitman viewed American English as the most expressive poetic language that ever existed and he used his studies of historical linguistics to corroborate that view Part 1 explicates the theory of language that Whitman developed in his linguistic notebooks unpublished manuscripts fugitive essays and two chapters of the popular book *Rambles Among Words* The diction and syntax of the 1855 1856 editions of *Leaves of Grass* are analyzed to show how Whitman s overwhelming interest in language theories resulted in the language experiment of the poems Part 2 examines the ways in which Whitman s view of language as an expression of the constantly evolving spirit of America subtly shifted to a more cumulative backward looking vision of linguistic and spiritual change Analysis of the diction syntax and organization of the last four editions of *Leaves of Grass* reveals how this shift in vision affected the style of Whitman s poetry and prose from 1860 to 1892 Whitman s groundbreaking poetic style the author concludes was a direct consequence of his view of language and the human spirit as dynamic progressivist and actively changing within a temporal world Conversely Whitman s experiments in both prose and poetry helped confirm his view of linguistic and spiritual evolution

Mutatio 1933 (English version) Giulio

Fulchignoni, 2024-05-17 New York the early decades of the 20th century Sweeping social changes and technological innovations have stirred collective and individual consciences but certain events are about to destroy the balance of society causing it to look inward and question its own excesses Running through the city streets are the Defenders a group of rebels committed to the fight against the fearsome Nova Vita organisation and its terrifying activities Joining them is Sam Dawet a young man who wants to make sense of his existence but also find redemption after unspeakable pain With the courageous Ronja and the eccentric Whisker he has to curb his yearning for scientific progress behind which lies a murky and corrupt nature that of the ruthless Adam West Will they be able to expose the secrets and crimes of the organisation and bring back balance to society *Mutatio 1933* is a celebration of the power of friendship bravery and the pursuit of truth able to engage us as only a great epic can

Experiment in Leisure Marion Milner, 2011-03-23 What is it that stops people from knowing what they want How often do

we wonder where we are going and what our world is all about Written in 1936 as a companion piece to *A Life of One's Own* *An Experiment in Leisure* further charts Marion Milner's illuminating and rewarding investigation into how we lead our lives Instead of drawing on her daily diary she turns to memory images images not only from her own life but also from books mythology travel and religion that seem to point to a suspension of ordinary everyday awareness From this condition of emptiness springs an increasing imaginative appreciation both of being alive and of the world we live in With a new introduction by Maud Ellmann *An Experiment in Leisure* remains a great adventure in thinking and living and will be essential reading for all those from a literary an artistic a historical an educational or a psychoanalytic psychotherapeutic background

[The Experiment of Faith](#) Ramage, 2020-04-17 Pope Benedict XVI memorably remarked that the Christian faith is a lot like a Gothic cathedral with its stained glass windows From the outside the Church can appear dark dreary and worn with age the crumbling relic of an institution that no longer speaks to men and women living in our modern world Indeed for many people today Christian morality with all of its commandments appears to be a source not of life and joy but instead of suffering and oppression Even within the Church many wonder why should I submit to ancient doctrines and outdated practices that restrict my freedom and impede my happiness In this timely and original book his third exploring the riches of Benedict XVI's vast corpus theologian Matthew Ramage sets out to meet this challenge with an in depth study of the emeritus pontiff's wisdom on how to live Christian discipleship in today's increasingly secularized world Taking as his starting point Benedict's conviction that the truth of Christianity like the beauty of a cathedral's glorious windows can be grasped only from the inside Ramage draws on Benedict's insights to show how all Christians can make the experiment of faith by living the theological virtues of faith hope and charity in daily life Along the way he shares his personal reflections on how Benedict's wisdom has helped him to navigate difficulties in embracing the faith and provides a way forward to those struggling to live as disciples in a way that is intellectually serious without remaining merely intellectual In so doing he also presents a highly nuanced yet accessible approach to defending the truth of the gospel in a world where life in Jesus Christ tends to be seen as unfulfilling irrelevant or just one lifestyle choice among others
