

## EXPLICIT / IMPLICIT RELATIONSHIPS WITHIN and BETWEEN SENTENCES

- Sentence comprehension may involve recognizing the relationship between parts of a sentence.
- If the relationship within the sentence is explicit (stated), transition words and phrases will be used. If the relationship within the sentence is implicit (unstated), the reader must infer the relationship.
- This skill is related to identifying the author's overall organizational pattern. Some of the same patterns and transitions learned in recognizing organizational patterns will be useful in recognizing relationships within sentences.
- Here are some examples:

| TYPE OF RELATIONSHIP                     | TRANSITIONS THAT HELP IDENTIFY THEM                                                                                                                                                                     |
