This volume focuses on the writers' representation of their relationships with their mothers, many of them traumatized survivors of historical cataclysms, many of them professional artists, many of them struggling to reconcile their creative work with their role as wife and mother. Grzemska sheds light not only on the literary strategies used by the memoirists but she also helps us understand women's struggles for an independent voice, for new models of commemoration, for healing. This book will interest readers in literary and cultural studies as well as anyone who wishes to better understand Poland's cultural transformations in the post-Communist era.

*Mothers and Daughters and the Origins of Female Subjectivity* Jane Van Buren, 2014-02-25. *Mothers and Daughters and the Origins of Female Subjectivity* challenges the theory of the Oedipus complex, which permeates psychoanalytic theory, psychology, semiotics, and cultural studies. The book focuses on the re-examination of women's development through the theories of primitive mental states. Women's subjectivity has been profoundly limited by continuing anxieties about the mother's body. Jane Van Buren describes how women are gradually escaping the curse of inferiority and finding a voice, enabling the mother to provide their daughters with a legacy of rightful agency over their bodies and minds. Drawing on the theories of Klein, Bion, and Winnicott, and incorporating recent developments in psychobiology, this book provides a novel approach to subjects including the dreams, myths, and fantasies of individuals, the nature of mother and daughter relationships, sexuality, pregnancy, menstruation, and the idea of the mother's body as problematic and dangerous. This interdisciplinary investigation into curtailed female subjectivity and its many ramifications in society, culture, and individual mental growth will be of great interest to all practising psychoanalysts and those studying psychoanalytic theory and gender studies.

Challenging Picturebooks in Education sheds new light on the multiple dimensions relevant to investigating the impact of picturebooks on learning processes and the development of multimodal literacy competencies. It thus makes a significant contribution to the growing area of picturebook research and will be key reading for educators, researchers and post graduate students in the field of literacy studies, children's literature and education research. **Exploring Giftedness and Autism** Trevor Clark, 2016-06-10 Savant and splinter skills are seen in memory, art, music or spatial skill amongst others. They can appear remarkable but tend to be seen as obsessive behaviors. Exploring Giftedness and Autism is based on a unique study which introduces and explores a differentiated curriculum and presents a combination of strategies employed in the education of gifted children and autistic children. Providing insights on the obsessive nature of savant skills, the challenging behaviors of savants and the familial link between the subject child's savant abilities and giftedness, the author highlights how the inclusion of this curriculum is critical in promoting better school performance and post school employment opportunities. The study has demonstrated the importance of using a strengths rather than a deficits approach in the education of students with a disability and regards autistic savants as gifted students with disabilities or as twice exceptional students with autism. With a practical section dedicated to putting the research into practice, this book is an incredibly important read for anyone working with gifted young people with disabilities in the classroom. *Psychoanalytic Explorations into the Primal Relationship in Japan and India* Osamu Kitayama, Jhuma Basak, 2025-07-10 In this landmark collaboration, Osamu Kitayama and Jhuma Basak chronicle their long standing collaboration and cultural exchange to survey the importance of familial relationships in Japan and India, exploring primal relations through a cross cultural psychoanalytic lens. Divided into three sections, *Psychoanalytic Explorations into the Primal Relationship in Japan and India* looks at each country's perception of parenthood and approach to raising children in turn, before concluding in an illuminating dialogue between the two authors. Kitayama explores the maternal figure within the mother-child relationship with a focus on the mother-son dyad as well as relationships between parents. He considers in depth how Japanese culture can often exclude what is perceived as alien, delving into its rich tapestry of folklore to understand underlying mental scripts which can shape collective perceptions, societal norms and expectations, each of which can pose an issue to healthy familial relationships. Basak's response draws from Indian socio-cultural and mythological contexts as well as clinical applications to provide psychoanalytic insight into the stark differences and similarities between attitudes in Japan, India and the western culture at large. Both authors join together to highlight different child-rearing practices such as co-sleeping and how they can shape human sexuality, subjectivity. Challenging the standardisation of the Oedipal myth, the book draws from literary and clinical examples in Japan and India to invite the reader into another world of parenting style and another idiom of psychoanalysis. Uniquely positioned to develop understanding of how psychoanalysis has developed in non-Western countries, this book is an essential resource for psychoanalysts in training and in practice.
