

Flowers for Algernon Illustrating Metaphors/Similes

Directions: Ray Bradbury uses a great deal of figurative language (metaphors, similes, personifications) throughout *Flowers for Algernon*. Some of these lines are incredibly visual. Your job for this assignment is to choose two of your favorite similes or metaphors from the book and illustrate them.

1. Consider what image you get in your mind when you read these lines.
2. Brainstorm ways that you can put this into a drawing, cartoon, collage etc.
3. Take a piece of paper (folded in half) and illustrate both of your choices.
4. Neatly fill the entire square with your image and color.
5. The quote should be neatly written or typed to fit at the bottom of the page.

If you're stuck on what metaphors/similes to select, here are a few to get you started:

1. "I'm the Queen bee, safe in the hive: you will be the drone, the traveling bee" (Bradbury 87).
2. "Delicately, like the petals of a flower, light the first page, light the second page: each becomes a black butterfly. Beautiful, eh?" (Bradbury 72).
3. "The electric humbler moved like a graying mouse on the pillow, touched by her hand" (Bradbury 48).
4. "His wife stretched on the bed, uncovered and cold, like a body displayed on the lid of a tomb, her eyes fixed to the ceiling by invisible threads of steel, immovable" (Bradbury 12).
5. "Her face, turned to him now, was fragile milk-crystal with a soft and constant light in it" (Bradbury 7).

After selecting and illustrating your metaphors and similes, answer the following questions on a separate sheet of paper. Be sure to answer the questions for each of the six descriptions you selected.

1. What two things is Bradbury comparing here?
2. What are some of the ways these two things are similar?
3. What are some of the ways these two things are different?
4. How does that help you see _____ in a new way?
5. Rewrite the simile/metaphor and replace it with the author's literal meaning.
6. How does the mood of the line created by the figurative language change when replaced with literal words?

abandoned the iconoclasm of his early work for an academicism he had consistently railed against in his own film criticism. Indeed if fever and fire were Truffaut's most consistent motifs the essays in this collection live up to his lifelong burning passion for the cinema. Written by world famous scholars the essays exhaustively explore the themes and styles of the films as well as Truffaut's relationships to Andr  Bazin Alfred Hitchcock and the directors of the New Wave his ground breaking and controversial film criticism and his position in the complex politics of French cultural life from the Popular Front to 1968 and after Angelo Restivo Georgia State University. Although the New Wave one of the most influential aesthetic revolutions in the history of cinema might not have existed without him Fran ois Truffaut has largely been ignored by film scholars since his death almost thirty years ago. As an innovative theoretician an influential critic and a celebrated filmmaker Truffaut formulated disseminated and illustrated the ideals of the New Wave with exceptional energy and distinction. Yet no book in recent years has focused on Truffaut's value and his overall contribution to cinema deserves to be redefined not only to reinstate him in his proper place but to let us rethink how cinema developed during his lifetime. In this new Companion thirty four original essays by leading film scholars offer new readings of individual films and original perspectives on the filmmaker's background influences and consequence. Hugely influential around the globe Truffaut is assessed by international contributors who delve into the unique quality of his narratives and establish the depth of his distinctively styled work. An extended interview with French filmmaker Arnaud Desplechin tracks Truffaut's controversial stature within French cinema and vividly identifies how he thinks and works as a director adding an irreplaceable perspective to this essential volume.

Fran ois Truffaut Anne Gillain, 2018-11-01 Truffaut fans will love this English translation of Gillain's work drawing on the psychology and cinematography of the acclaimed filmmaker. Booklist For Fran ois Truffaut the lost secret of cinematic art is in the ability to generate emotion and reveal repressed fantasies through cinematic representation. Available in English for the first time Anne Gillain's Fran ois Truffaut: The Lost Secret is considered by many to be the best book on the interpretation of Truffaut's films. Taking a psycho biographical approach Gillain shows how Truffaut's creative impulse was anchored in his personal experience of a traumatic childhood that left him lonely and emotionally deprived. In a series of brilliant nuanced readings of each of his films she demonstrates how involuntary memories arising from Truffaut's childhood not only furnish a succession of motifs that are repeated from film to film but also govern every aspect of his *mise en sc ne* and cinematic technique. Brilliant. A delicious reexamination that will make us want to sit down and take in all of Truffaut's wonderful filmography at once. PopMatters

Eller, 2020-08-22

Celebrated storyteller cultural commentator friend of astronauts prophet of the Space Age by the end of the 1960s Ray Bradbury had attained a level of fame and success rarely achieved by authors let alone authors of science fiction and fantasy He had also embarked on a phase of his career that found him exploring new creative outlets while reinterpreting his classic tales for generations of new fans Drawing on numerous interviews with Bradbury and privileged access to personal papers and private collections Jonathan R Eller examines the often overlooked second half of Bradbury's working life As Bradbury's dreams took him into a wider range of nonfiction writing and public lectures the diminishing time that remained for creative pursuits went toward Hollywood productions like the award winning series *Ray Bradbury Theater* Bradbury developed the *Spaceship Earth* narration at Disney's EPCOT Center appeared everywhere from public television to NASA events to comic conventions published poetry and mined past triumphs for stage productions that enjoyed mixed success Distracted from storytelling as he became more famous Bradbury nonetheless published innovative experiments in autobiography masked as detective novels the well received fantasy *The Halloween Tree* and the masterful time travel story *The Toynbee Convector* Yet his embrace of celebrity was often at odds with his passion for writing and the resulting tension continuously pulled at his sense of self The revelatory conclusion to the acclaimed three part biography *Bradbury Beyond Apollo* tells the story of an inexhaustible creative force seeking new frontiers *Black and Brown Planets* Isiah Lavender III, 2014-09-25 *Black and Brown Planets* embarks on a timely exploration of the American obsession with color in its look at the sometimes contrary intersections of politics and race in science fiction The contributors including De Witt D Kilgore Edward James Lisa Yaszek and Marleen S Barr among others explore science fiction worlds of possibility literature television and film lifting blacks Latin Americans and indigenous peoples out from the background of this historically white genre This collection considers the role of race and ethnicity in our visions of the future The first section emphasizes the political elements of black identity portrayed in science fiction from black America to the vast reaches of interstellar space framed by racial history In the next section analysis of indigenous science fiction addresses the effects of colonization helps discard the emotional and

psychological baggage carried from its impact and recovers ancestral traditions in order to adapt in a post Native apocalyptic world Likewise this section explores the affinity between science fiction and subjectivity in Latin American cultures from the role of science and industrialization to the effects of being in and moving between two cultures By infusing more color in this otherwise monochrome genre Black and Brown Planets imagines alternate racial galaxies with viable political futures in which people of color determine human destiny
