Geography Memo 2014 Tasks 31 July:

The Drone Memos Jameel Jaffer, 2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens Publishers Weekly starred review In the long response to 9 11 the US government initiated a deeply controversial policy of targeted killing the extrajudicial execution of suspected terrorists and militants typically via drones A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned In *The Drone Memos* civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of *The Nation*

The Birth of Psychological War Dr Jeffrey Whyte, 2023-07-19 *The Birth of Psychological War* explores the worlds of war propaganda intelligence and espionage from which US psychological warfare emerged in the early years of the Second World War developed during the Cold War of ideas against the Soviet Union and culminated in the counterinsurgency campaigns of the Vietnam War

The Suicidal State in Somalia Mohamed Haji Ingiriis, 2016-04-01 This book is a critical reposition of the study of military regimes in Africa Documenting and delving deep into the reign and rule of General Mohamed Siad Barre regime in Somalia from 1969 up to 1991 the book puts emphasis on African agencies ostensibly shaped by external beneficiaries and patrons over what went wrong with Africa after the much awaited post colonial period It does so by critically engaging with the wider theoretical and conceptual frameworks in African Studies which more often than not tend to attribute the post colonial African State raptures to colonialism The main thesis of the book is that colonialism left Africa on its own space wherein African leaders could have made a difference By putting discrete perspectives into historical context the book circumnavigates through comparative and comprehensive holistic approach to the Siad Barre regime to reveal how colonialism did not produce less than what criminalisation of the State resulted in Somalia This empirical analysis is crucial to understanding the contemporary conundrum facing the Somali world today The argument is that the contemporary conflicts are not only attributable to but also because of the past plunders of the post colonial leaders trained by the departed colonial authorities Employing nuanced analytic concepts and categories the aim of the book is to refine the past to recapture the present and envision the future Framing new ways of analyzing military regimes in Africa begins with re assessment of how the Siad Barre regime was previously approached Marshalling extensive and extraordinary amount of sources the book unveils the intricacies and contradictions of the dictatorship and its impact on the Somali psyche The book

locates the evolution of the regime within the wider context of the Cold War political contestation between the East and the West Unparalleled in depth and analysis this book is the first full length scholarly study of the Siad Barre regime systematically explaining the politics and process of the dictatorial rule The historicity of exploring Somali State trajectory entails employing a Braudelien longue dur e approach Thus three interrelated sets of contexts questions inform the study how Siad Barre himself came into power how he ruled and maintained his authoritarian reign over the Somalis and who had assisted him from inside and outside the Somali world **Constructing Nationalism in Iran** Meir Litvak,2017-04-21

Nationalism has played an important role in the cultural and intellectual discourse of modernity that emerged in Iran from the late nineteenth century to the present promoting new formulations of collective identity and advocating a new and more active role for the broad strata of the public in politics The essays in this volume seek to shed light on the construction of nationalism in Iran in its many manifestations cultural social political and ideological by exploring on going debates on this important and progressive topic **The Geography of Injustice** Barak Kushner,2024-03-15 In The Geography of Injustice Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan s empire At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge War crimes tribunals Kushner shows allow for the history of the defeated to be heard In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two These narratives and counter narratives form the basis of postwar memory concerning Japan s imperial aims across the region The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption The Geography of Injustice offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history **Organic Struggle** Brian K. Obach,2015-05-08 Organic

Struggle analyzes the evolution of the sustainable agriculture movement in the United States and evaluates its achievements and shortcomings It traces the development of organic farming from its roots in the 1940s through its embrace by the 1960s counterculture to its mainstream acceptance and development into a multi billion dollar industry **Peer-to-peer**

Accommodation and Community Resilience Anna Farmaki,Dimitri Ioannides,Stella Kladou,2022-03-16 The growth of peer to peer P2P accommodation has been remarkable However the rapid expansion of the phenomenon has yielded several concerns over its potentially negative economic social and environmental impacts These impacts are highlighted in policy agendas as an emerging problem encountered by many local communities in destinations experiencing a boom in P2P accommodation Specifically concerns have been raised over the impact of the growth of P2P accommodation on local housing

markets residents well being and the environment as a result of the touristification of residential areas In fact many observers accuse P2P accommodation of fuelling the overtourism problem that several destinations face This edited book addresses the need to examine the P2P accommodation phenomenon from a community resilience lens In particular through a collection of chapters presenting a range of empirical and conceptual perspectives from urban and rural communities the book considers the implications of P2P accommodation growth on the resilience of local communities and the sustainable development of places

Isles of Amnesia Mark J. Rauzon, 2016-01-31 For over a quarter century biologist Mark J Rauzon worked in the field of island restoration traveling throughout the American Insular Pacific to eradicate invasive plants and animals introduced by humans The region spans from Hawai i to Samoa to Guam and their neighbors small obscure tropical islands that are hundreds if not thousands of nautical miles from each other These little known US possessions and territories include various islands and atolls Jarvis Howland Baker the Northern Marianas Wake Palmyra Johnston and Rose Atoll among others They anchor a vast National Marine Monument program created in 2009 and expanded in 2014 to protect the largest area in the world from exploitation In *Isles of Amnesia* Rauzon chronicles the ecological and human history of these islands enlivened with his first hand experiences of eradication efforts to restore atoll ecosystems and maximize native biodiversity Each chapter focuses on an individual island or island group revealing how each location has its own particular story secret past or ecological lesson to be shared Taken as a whole the region has played a unique role in American history with the remoteness of the islands having served the needs of whalers and guano miners in the 1800s and in later years that of military secret projects missile launching chemical weapon incinerations and air bases Rauzon further explores the creation of the National Marine Monuments and what their protection means to a changing ocean and presents original research about the US military s Pacific Project and germ warfare testing Illustrated with over seventy historical photographs and original drawings this much needed work tells the fascinating story of America s forgotten Pacific islands

Life in the Age of Drone Warfare Lisa Parks, Caren Kaplan, 2017-10-19 This volume s contributors offer a new critical language through which to explore and assess the historical juridical geopolitical and cultural dimensions of drone technology and warfare They show how drones generate particular ways of visualizing the spaces and targets of war while acting as tools to exercise state power Essays include discussions of the legal justifications of extrajudicial killings and how US drone strikes in the Horn of Africa impact life on the ground as well as a personal narrative of a former drone operator The contributors also explore drone warfare in relation to sovereignty governance and social difference provide accounts of the relationships between drone technologies and modes of perception and mediation and theorize drones relation to biopolitics robotics automation and art Interdisciplinary and timely *Life in the Age of Drone Warfare* extends the critical study of drones while expanding the public discussion of one of our era s most ubiquitous instruments of war Contributors Peter Asaro Brandon Wayne Bryant Katherine Chandler Jordan Crandall Ricardo Dominguez Derek Gregory Inderpal Grewal Lisa Hajjar Caren

Kaplan Andrea Miller Anjali Nath Jeremy Packer Lisa Parks Joshua Reeves Thomas Stubblefield Madiha Tahir Sybil & Cyril Jenny Uglow, 2022-12-06 From Jenny Uglow one of our most admired writers a beautifully illustrated story of a love affair and a dynamic artistic partnership between the wars In 1922 Cyril Power a fifty year old architect left his family to work with the twenty four year old Sybil Andrews They would be together for twenty years Both became famous for their dynamic modernist linocuts streamlined full of movement and brilliant color summing up the hectic interwar years Yet at the same time they looked back to medieval myths and early music to country ways that were disappearing from sight Jenny Uglow s Sybil Cyril Cutting Through Time traces their struggles and triumphs conflicts and dreams following them from Suffolk to London from the New Forest to Vancouver Island This is a world of futurists surrealists and pioneering abstraction but also of the buzz of the new of machines and speed of shops and sport and dance shining against the threat of depression and looming shadows of war
