Geography Paper 1 November 2012 Annexure:

Indian Cinema Today and Tomorrow S. V. Srinivas, Ratheesh Radhakrishnan, Subhajit Chatterjee, GOYAL

OMITA, 2024-08-22 Cinema has been and is a powerful tool for social mobilisation. The political importance of cinema was of course always well known and has continued to evolve and grow. However, with innovations in modern technology, there has been the exponential growth of television alongside the movies, with content made especially for TV as well as social media. This volume covers developments in Indian Cinema over the last decade. It explores an array of changes which have dramatically changed cinema: a surge of new filming and broadcasting technologies from the camera phone to the most sophisticated digital equipment; an avalanche of talent from trained to completely untrained actors; and a volume of content difficult to document and categorise. It also studies cinema growth and reactions to the onslaught of home entertainment and discusses its changing formats over the years from TV to satellite to VCRs and DVDs, serials to OTT streaming platforms. This book will be of great interest to scholars and researchers in film studies, performance studies, cultural studies, media studies, and popular culture. It will also interest professionals working in media and entertainment industries.

The Violence of Conservation in Africa Ramutsindela, Maano, Matose, Frank, Mushonga, Tafadzwa, 2022-01-11 Offering insights on violence in conservation, this timely book demonstrates how and why the state in Africa pursues conservation objectives to the detriment of its citizens. It focuses on how the dehumanization of black people and indigenous groups, the insertion of global green agendas onto the continent, a lack of resource sovereignty, and neoliberal conservation account for why violence is a permanent feature of conservation in Africa.

The Hindu Kush Himalaya Assessment Philippus Wester, Arabinda Mishra, Aditi Mukherji, Arun Bhakta Shrestha, 2019-01-04 This open access volume is the first comprehensive assessment of the Hindu Kush Himalaya (HKH) region. It comprises important scientific research on the social, economic, and environmental pillars of sustainable mountain development and will serve as a basis for evidence-based decision making to safeguard the environment and advance people's well-being. The compiled content is based on the collective knowledge of over 300 leading researchers, experts, and policymakers brought together by the Hindu Kush Himalayan Monitoring and Assessment Programme (HIMAP) under the coordination of the International Centre for Integrated Mountain Development (ICIMOD). This assessment was conducted between 2013 and 2017 as the first of a series of monitoring and assessment reports under the guidance of the HIMAP Steering Committee. Eklavya Sharma (ICIMOD), Atiq Raman (Bangladesh), Yuba Raj Khatri (Nepal), Linxiu Zhang (China), Surendra Pratap Singh (India), Tandong Yao (China), and David Molden (ICIMOD and Chair of the HIMAP SC). This First HKH Assessment Report consists of 16 chapters which comprehensively assess the current state of knowledge of the HKH region, increase the understanding of various drivers of change and their impacts, address critical data gaps, and develop a set of evidence-based and actionable policy solutions and recommendations. These are linked to nine mountain priorities for the mountains and people of the HKH, consistent with the Sustainable Development Goals. This book is a must

read for policy makers academics and students interested in this important region and an essentially important resource for contributors to global assessments such as the IPCC reports

Fuel your quest for knowledge with Authored by is thought-provoking masterpiece, Explore **Geography Paper 1 November 2012 Annexure** .
