statement on suburbia at the beginning of the twenty first century *The Strategic Management of Place at Work* David B. Audretsch, Alice Civera, Erik E. Lehmann, Konstantin P. Leidinger, Jonah M. Otto, Laurenz Weiße, Katharine Wirsching, 2023-06-24 Global economic forces underpin political and social issues and have real impacts on the quality of life in local communities cities states and regions In the face of potential volatility leaders in every place concern themselves with how they can ensure local economic resiliency for present and future generations This book argues for the strategic management of places through intentional public policy that brings together stakeholders from the public private and nonprofit sectors to create an inclusive and sustainable economic path forward While many economists and political scientists have proposed one size fits all approaches this book puts forward a more holistic approach giving local leaders and policymakers the tools to take inventory of their local contexts and providing case study examples of how to craft public policies that create prosperous and sustainable economic conditions *The Coming of Neo-Feudalism* Joel Kotkin, 2023-01-10 Following a remarkable epoch of greater dispersion of wealth and opportunity we are inexorably returning towards a more feudal era marked by greater concentration of wealth and property reduced upward mobility demographic stagnation and increased dogmatism If the last seventy years saw a massive expansion of the middle class not only in America but in much of the developed world today that class is declining and a new more hierarchical society is emerging The new class structure resembles that of Medieval times At the apex of the new order are two classes a reborn clerical elite the clerisy which dominates the upper part of the professional ranks universities media and culture and a new aristocracy led by tech oligarchs with unprecedented wealth and growing control of information These two classes correspond to the old French First and Second Estates Below these two classes lies what was once called the Third Estate This includes the yeomanry which is made up largely of small businesspeople minor property owners skilled workers and private sector oriented professionals Ascendant for much of modern history this class is in decline while those below them the new Serfs grow in numbers a vast expanding property less population The trends are mounting but we can still reverse them if people understand what is actually occurring and have the capability to oppose them **Gender and Rural Migration** Glenda Tibe Bonifacio, 2013-11-20 *Gender and Rural Migration Realities Conflict and Change* explores the intersection of gender migration and rurality in 21st century Western and non Western contexts In a world where heightened globalization is making borders increasingly porous rural communities form part of the migration nexus While rural out migration is well documented the gendered dynamics of rural in migration including return rural migration and the connectivity of rural urban global local spaces are often overlooked In this collection well grounded case studies involving diverse groups of people in rural communities in Australia Austria Brazil Canada China Norway the United States and Uzbekistan are organized into three themes contesting rurality and belonging women s empowerment and social relations and sexualities and mobilities As demonstrated in this anthology rural areas are contested sites among queer youth same sex couples working women young

mothers migrant farm workers temporary foreign workers in migrants and return migrants The rich expositions of various narratives and statistical data in multidisciplinary perspectives by emerging and established scholars claim gender and rurality as nodal points in contemporary migration discourse

Evaluating the Obama Presidency Meena Bose, Paul Fritz, 2024-07-22 In 2007 and 2008 Barack Obama ran for president with a message of a shared purpose uniting all Americans and was elected with expectations that he would usher in a new national culture under an approach grounded in public engagement that would transcend partisan divisions But in an institutional system designed for incremental and contested policy making governance enacting these transformational ambitions proved to be far more difficult than anticipated This innovative volume assesses the legacy of President Obama with a conceptual focus on the challenge of meeting his goals with the realities of governing A diverse group of political science history and communication studies experts systematically examines Obama's performance accomplishments and shortcomings through the lens of the expectations gap the tensions and obstacles of translating campaign promises into policies The wide representative set of case studies address campaigning and coalition building party polarization presidential communication executive power leadership and decision making and domestic and foreign policy With original and deep analysis these scholars make a unique enduring contribution to understanding the Obama presidency the office of the president and indeed American politics This insightful accessible book will be of great interest to students and scholars of the presidency political communication rhetoric and broadly across US government and democracy

Revolting Subjects Doctor Imogen Tyler, 2013-04-11 *Revolting Subjects* is a groundbreaking account of social abjection in contemporary Britain exploring how particular groups of people are figured as revolting and how they in turn revolt against their abject subjectification The book utilizes a number of high profile and in depth case studies including chavs asylum seekers Gypsies and Travellers and the 2011 London riots to examine the ways in which individuals negotiate restrictive neoliberal ideologies of selfhood In doing so Tyler argues for a deeper psychosocial understanding of the role of representational forms in producing marginality social exclusion and injustice whilst also detailing how stigmatization and scapegoating are resisted through a variety of aesthetic and political strategies Imaginative and original *Revolting Subjects* introduces a range of new insights into neoliberal societies and will be essential reading for those concerned about widening inequalities growing social unrest and social justice in the wider global context

The Complacent Class Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog *Marginal Revolution* is the first thing I read every morning And his brilliant new book *The Complacent Class* has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen

is that Americans today have broken from this tradition we re working harder than ever to avoid change We re moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We re more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

Global Value Chains and Global Production Networks Jeffrey Neilson,Bill Pritchard,Henry Yeung Wai-Chung,2017-10-02 The global economic system is experiencing a profound period of rapid change The emergence of globalised production and distribution systems which bring together diverse constellations of economic actors through a complex regime of global corporate governance state regulation and new international divisions of labour demands corresponding and innovative explanatory models Global value chains GVCs and global production networks GPNs have been particularly useful as conceptual frameworks for understanding the global market engagement of firms regions and nations This book examines the rise of GVCs and GPNs as dominant features of the international political economy It brings together leading thinkers in the field and sets out new directions for future scholarship in understanding the contemporary global economic system In doing so this book makes a significant contribution to our understanding of the international political economy and the global economic system in the post Washington Consensus era of contemporary capitalism This book was published as a special issue of the Review of International Political Economy
