Sheila Beverly,2023-12-08 Reviews Sheila Beverly s new workbook Rethinking Writing One Word at a Time is a promising tool for helping students who struggle with writing Mrs Beverly who holds a B A in English and an M Ed In reading education has years of experience teaching students to write At first her innovative Grammar Bubble appears to be a part to whole approach to teaching writing But in truth she uses direct teaching of the eight parts of speech as an entry point a conceptual structure and motivational hook to get hesitant writers to put their ideas down on paper Then Mrs Beverly uses a workshop collaborative model to keep her students writing drafting sharing revising and editing It is obvious that much thinking trying out and improving has gone into the activities described in this workbook It is also obvious from reading the revealing Preface that Mrs Beverly is a committed educator who is passionate about empowering her students to express their voices in print Dr Darrell Morris Professor of Reading Education 2016 2017 Distinguished Graduate Faculty Award Director of Anderson Reading Clinic Department of Reading Education English Department Chair Retired I wish I had Rethinking Writing One Word at a Time Eights Parts of Speech when I was teaching in the classroom Finally a workbook that really breaks down grammar and writing in a way that builds and makes sense to the teacher and the learner The Grammar Bubble Manipulative Toy games writing prompts and more are great for emerging writers and those who need a writing refresher It is interactive and thought provoking This workbook could benefit anyone who desires to grow in their writing journey by starting with Rethinking Writing Dr Renita L Webb Ph D Educational Leadership Strategist Former Elementary School Principal Former Middle High School English Teacher **Teaching Engineering, Second Edition** Phillip C. Wankat, Frank S. Oreovicz,2015-01-15 The majority of professors have never had a formal course in education and the most common method for learning how to teach is on the job training This represents a challenge for disciplines with ever more complex subject matter and a lost opportunity when new active learning approaches to education are yielding dramatic improvements in student learning and retention This book aims to cover all aspects of teaching engineering and other technical subjects It presents both practical matters and educational theories in a format useful for both new and experienced teachers It is organized to start with specific practical teaching applications and then leads to psychological and educational theories The practical orientation section explains how to develop objectives and then use them to enhance student learning and the theoretical orientation section discusses the theoretical basis for learning teaching and its impact on students Written mainly for PhD students and professors in all areas of engineering the book may be used as a text for graduate level classes and professional workshops or by professionals who wish to read it on their own Although the focus is engineering education most of this book will be useful to teachers in other disciplines Teaching is a complex human activity so it is impossible to

develop a formula that guarantees it will be excellent However the methods in this book will help all professors become good teachers while spending less time preparing for the classroom This is a new edition of the well received volume published by McGraw Hill in 1993 It includes an entirely revised section on the Accreditation Board for Engineering and Technology ABET and new sections on the characteristics of great teachers different active learning methods the application of technology in the classroom from clickers to intelligent tutorial systems and how people learn Standards-Based Comprehension Strategies and Skills Guide Miriam Myers,2006-07-26 This series ensures that students learn necessary reading skills by offering a variety of texts combined with targeted lessons to practice and reinforce comprehension and fluency The fiction and nonfiction passages prepare students for the type of reading found on most standardized tests
