grower or winemaker who has ever wrestled with the most important myths of winegrowing or debated them with colleagues
and that would be all of us It is also a great read for any wine consumer interested in looking at the man behind the curtain
so to speak the myths promoted by wine writers tasting room staff sommeliers and other wine gatekeepers Wines Vines A
meticulously researched volume that every serious sommelier should read if only to disagree The Somm Journal Wine is a
traditional product with traditional explanations Oft romanticized Old World notions of how to create fine wine have been
passed down through generations and continue to dominate popular discussions of wine quality However many of these
beliefs predate science and remain isolated from advances in the understanding of how crops grow and fruit ripens
Allegiance to them has frequently impeded open minded investigation into how grapevines interact with the environment
thus limiting innovation in winegrowing In *Terroir and Other Myths of Winegrowing* Mark A Matthews applies a scientist s
skepticism and scrutiny to examine widely held beliefs about viticulture Is terroir primarily a marketing ploy that obscures
understanding of which environments really produce the best wine Is reducing yield an imperative for high quality grapes
and wine What does it mean to have vines that are balanced or grapes that are physiologically mature Matthews explores and
dissects these and other questions to debunk the myths of winegrowing that may be holding us back from achieving a higher
wine quality *Supplementary Catalogue of the Public Library of New South Wales, Sydney for the Years 1888-[1910]* ...
