July 1914 Countdown To War:

7/1/1914 Sean McMeekin, 2013-04-09 Focusing on the weeks preceding the beginning of World War I traces the efforts of a group of statesmen who used the assassination of Archduke Ferdinand which was largely ignored to trigger the outbreak of war *July 1914* Sean McMeekin, 2014 The outbreak of the First World War was a drama never surpassed One hundred years later the characters still seem larger than life Archduke Franz Ferdinand brooding heir to the Habsburg throne the fanatical Bosnian Serb assassins who plot to murder him Conrad and Berchtold the Austrians who exploit the outrage Kaiser Wilhelm and Bethmann Hollweg backing up the Austrians Sazonov Russian Foreign Minister trying to live down a reputation for cowardice Poincaré and Paléologue two French statesmen who urge on the Russians and not least Winston Churchill who alone among Cabinet officials in London perceives the seriousness of the situation in time to take action July 1914 tells the story of Europe's countdown to war through the eyes of these men between the bloody opening act on 28 June 1914 and Britain's final plunge on 4 August which turned a European conflict into a world war The outbreak of war was no accident of fate Individual statesmen pursuing real objectives conjured up the conflict in some cases by conscious intention While some sought honourably to defuse tensions others all but oozed with malice as they rigged the decks for war Dramatic inevitably tense and almost forensically observed Sean McMeekin's unique book retells the story of that cataclysmic month making clear as never before who was responsible for the catastrophe You will never think the same way again about the origins of the First World War **July 1914**, 1975 **Our Friend the Enemy** David W. Cameron, 2014-10-01 Our Friend the Enemy is the first detailed history of the Gallipoli campaign at Anzac since Charles Bean's Official History Viewed from both sides of the wire and described in first hand accounts Australian Captain Herbert Layh recounted that as they approached the beach on 25 April that once we were behind cover the Turks turned their fire on us and gave us a lively 10 minutes A poor chap next to me was hit three times He begged me to shoot him but luckily for him a fourth bullet got him and put him out of his pain Later that day Sergeant Charles Saunders a New Zealand engineer described his first taste of battle The Turks were entrenched some 50-100 yards from the edge of the face of the gully and their machine guns swept the edges Line after line of our men went up some lines didn't take two paces over the crest when down they went to a man and on came another line Gunner Recep Trudal of the Turkish 27th Regiment wrote of the fierce Turkish counter attack on 19 May designed to push the Anzacs back into the sea It started at morning prayer call time and then it went on and on never stopped You know there was no break for eating or anything Attack was our command That was what the Pasha said Once he says Attack you attack and you either die or you survive **Austria 1867-1955** John W. Boyer, 2022-09-15 Austria 1867-1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices

with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance

Roots of War David G. Winter, 2018 *Roots of War* presents systematic archival experimental and survey research on three psychological factors leading to war desire for power exaggerated perception of threat and justification for force set in comparative historical accounts of the unexpected 1914 escalation to world war and the peacefully resolved 1962 Cuban Missile Crisis Provided by publisher

The Great War John Morrow, 2016-09-17 *The Great War* is a landmark history that firmly places the First World War in the context of imperialism Set to overturn conventional accounts of what happened during this the first truly international conflict it extends the study of the First World War beyond the confines of Europe and the Western Front By recounting the experiences of people from the colonies especially those brought into the war effort either as volunteers or through conscription John Morrow's magisterial work also unveils the impact of the war in Asia India and Africa From the origins of World War One to its bloody and largely unknown aftermath *The Great War* is distinguished by its long chronological coverage first person battle and home front accounts its pan European and global emphasis and the integration of cultural considerations with political

Contesting the Origins of the First World War Troy Paddock, 2019-07-31 *Contesting the Origins of the First World War* challenges the Anglophone emphasis on Germany as bearing the primary responsibility in causing the conflict and instead builds upon new perspectives to reconsider the roles of the other Great Powers Using the work of Terrance Zuber Sean McMeekin and Stefan Schmidt as building blocks this book reassesses the origins of the First World War and offers an explanation as to why this reassessment did not come about

earlier Troy R E Paddock argues that historians need to redraw the historiographical map that has charted the origins of the war His analysis creates a more balanced view of German actions by also noting the actions and inaction of other nations Recent works about the roles of the five Great Powers involved in the events leading up to the war are considered and Paddock concludes that Germany does not bear the primary responsibility This book provides a unique historiographical analysis of key texts published on the origins of the First World War and its narrative encourages students to engage with and challenge historical perspectives

To Overthrow the World Sean McMeekin,2024-09-10 From an award winning historian a new global history of Communism When the USSR collapsed in 1991 the world was certain that Communism was dead Today three decades later it is clear that it was not While Russia may no longer be Communist Communism and sympathy for Communist ideas have proliferated across the globe In To Overthrow the World Sean McMeekin investigates the evolution of Communism from a seductive ideal of a classless society into the ruling doctrine of tyrannical regimes Tracing Communism s ascent from theory to practice McMeekin ranges from Karl Marx s writings to the rise and fall of the USSR under Stalin to Mao s rise to power in China to the acceleration of Communist or Communist inspired policies around the world in the twenty first century McMeekin argues however that despite the endurance of Communism it remains deeply unpopular as a political form Where it has arisen it has always arisen by force Blending historical narrative with cutting edge scholarship To Overthrow the World revolutionizes our understanding of the evolution of Communism an idea that seemingly cannot die

Germany's Defeat in the First World War Mark D. Karau,2015-05-12 A noted World War I scholar examines the critical decisions and events that led to Germany s defeat arguing that the German loss was caused by collapse at home as well as on the front Much has been written about the causes for the outbreak of World War I and the ways in which the war was fought but few historians have tackled the reasons why the Germans who appeared on the surface to be winning for most of the war ultimately lost This book in contrast presents an in depth examination of the complex interplay of factors social cultural military economic and diplomatic that led to Germany s defeat The highly readable work begins with an examination of the strengths and weaknesses of the two coalitions and points out how the balance of forces was clearly on the side of the Entente in a long and drawn out war The work then probes the German plan to win the war quickly and the resulting campaigns of August and September 1914 that culminated in the devastating defeat in the First Battle of the Marne Subsequent chapters discuss the critical factors and decisions that led to Germany s loss including the British naval blockade the role of economic factors in maintaining a consensus for war and the social impact of material deprivation

Building on a Common Foundation Brian R.

Talbot,2021-04-12 In the second half of the nineteenth century Scottish Baptists like other Evangelical Protestant denominations were focusing more on things they had in common such as a commitment to home evangelization and church planting providing a common fund to assist small and struggling congregations the provision of theological education for the training of prospective pastors together with the need to disseminate information between the churches concerning their progress in the work of the gospel From the start of this Baptist Union in 1869 the numbers of churches and members grew steadily until 1935 It was a remarkable story of dedicated Christian service Scottish Baptists came through two world wars the social revolution of the 1960s and the materialistic emphases of the 1980s with a significant degree of success in adapting their evangelistic activities to relate to their social context There is little doubt that from the late 1980s the growing secularization in this country ensured that mission strategies adopted by these Scottish Christians were less successful than in previous decades However a revitalization of its work in the early years of the twenty first century has given renewed grounds for hope for its work and witness in the coming years

Contagion and War John A. Vasquez,2018-11-22 John A Vasquez explains the processes that cause the spread of interstate war by looking at how contagion worked to bring countries into the First World War Analysing all the key states that declared war the book is comprised of three parts Part I lays out six models of contagion alliances contiguity territorial rivalry opportunity brute force economic dependence Part II then analyses in detail the decision making of every state that entered the war from Austria Hungary in 1914 to the United States and Greece in 1917 Part III has two chapters the first considers the neutral countries and the second concludes the book with an overarching theoretical analysis

including major lessons of the war and new hypotheses about contagion This book will be of great interest to students and scholars of international relations conflict studies and international history especially those interested in the spread of conflict or the First World War The Next Great War? Richard N. Rosecrance, Steven E. Miller, 2014-11-21 Experts consider how the lessons of World War I can help prevent U S China conflict A century ago Europe s diplomats mismanaged the crisis triggered by the murder of Archduke Franz Ferdinand of Austria and the continent plunged into World War I which killed millions toppled dynasties and destroyed empires Today as the hundredth anniversary of the Great War prompts renewed debate about the war s causes scholars and policy experts are also considering the parallels between the present international system and the world of 1914 Are China and the United States fated to follow in the footsteps of previous great power rivals Will today s alliances drag countries into tomorrow s wars Can leaders manage power relationships peacefully Or will East Asia s territorial and maritime disputes trigger a larger conflict just as rivalries in the Balkans did in 1914 In The Next Great War experts reconsider the causes of World War I and explore whether the great powers of the twenty first century can avoid the mistakes of Europe s statesmen in 1914 and prevent another catastrophic conflict They find differences as well as similarities between today s world and the world of 1914 but conclude that only a deep understanding of those differences and early action to bring great powers together will likely enable the United States and China to avoid a great war Contributors Alan Alexandroff Graham Allison Richard N Cooper Charles S Maier Steven E Miller Joseph S Nye Jr T G Otte David K Richards Richard N Rosecrance Kevin Rudd Jack Snyder Etel Solingen Arthur A Stein Stephen Van Evera
