Last Words And Old Time Memories:

Last Words and Old-time Memories Maxwell Pierson Gaddis, 1882 *Memories* Max Muller, 1912 *Memory Performance and Competencies* Franz E. Weinert, Wolfgang Schneider, 1995 Research on memory development has accumulated over the past few years. Given the number of relevant publications in the field, it becomes increasingly difficult to keep track of major advances in specific areas of memory development. This book illustrates 2 purposes to permit experts in the various subdomains of research in memory development to summarize recent findings concerning the respective roles of capacity strategies and knowledge in the acquisition of memory skills and to discuss cross-cutting topics such as the influence of individual differences, practical and educational implications, and the potential of longitudinal studies.

Old-Time Music Makers of New York State Simon J. Bronner, 1988-01-01 Ask an old timer what life was like in rural upstate New York during the nineteenth and early twentieth centuries and you will hear about the dances and bees that brought villagers and farmers together. You will hear of favorite fiddlers who held center stage with dance tunes taken from early British and American sources. You will hear of old time music and its significance to a people making the transition from a rural agricultural life to an urban industrial one. *Old Time Music Makers of New York State* is the first book published on this rich legacy of traditional Anglo-American music and dance. It traces the development of old time music beginning with its movement into New York State from New England in the early nineteenth century and to its combination with commercial country music in the twentieth century. Exploring the regional character of the music and its meaning to the people who enjoy it, Bronner introduces memorable figures from the major periods in the development of old time music and he places their stories, their lives, and their music in the context of the region's cultural and historical changes. This is much more than a regional study; however, Bronner brings to the fore issues of national scope and interest. He discusses the relationship of old time music to the commercial country music with which it has been closely aligned and he challenges the prevailing wisdom that the origins of country music are in the South. Musician, fan, folklorist, and historian alike will benefit from and enjoy this book. The many musical transcriptions, annotations, photographs, and appendixes provide a valuable reference to be used again and again. *Theatres of Memory* Raphael Samuel, 1994 This work offers an overview of how the past has been manipulated in art, politicized, and sold to the consumer, yet takes issue with those who claim this interest in heritage is merely obsessive nostalgia. The author covers a multitude of topics such as the Festival of Britain and conservation. **50+**

A Treasure Chest of Memories Joe Mitchell Chapple,1911 **Digital Memory and the Archive** Wolfgang Ernst,2012-12-20 In the popular imagination archives are remote largely obsolete institutions either antiquated inevitably dusty libraries or sinister repositories of personal secrets maintained by police states Yet the archive is now a ubiquitous feature of digital life Rather than being deleted e mails and other computer files are archived Media software and cloud storage allow for the instantaneous cataloging and preservation of data from music photographs and videos to personal information gathered by social media sites In this digital landscape the archival oriented media theories of Wolfgang Ernst are particularly relevant Digital Memory and the Archive the first English language collection of the German media theorist s work brings together essays that present Ernst s controversial materialist approach to media theory and history His insights are central to the emerging field of media archaeology which uncovers the role of specific technologies and mechanisms rather than content in shaping contemporary culture and society Ernst s interrelated ideas on the archive machine time and microtemporality and the new regimes of memory offer a new perspective on both current digital culture and the infrastructure of media historical knowledge For Ernst different forms of media systems from library catalogs to sound recordings have influenced the content and understanding of the archive and other institutions of memory At the same time digital archiving has become a contested site that is highly resistant to curation thus complicating the creation and preservation of cultural memory and history

Religion and Memory in Tacitus' Annals Kelly E. Shannon-Henderson, 2018-11-29 Throughout his narrative of Julio Claudian Rome in the Annals Tacitus includes numerous references to the gods fate fortune astrology omens temples priests the emperor cult and other religious material Though scholars have long considered Tacitus discussion of religion of minor importance this volume demonstrates the significance of such references to an understanding of the work as a whole by analyzing them using cultural memory theory which views religious ritual as a key component in any society s efforts to create a lived version of the past that helps define cultural identity in the present Tacitus who was not only an historian but also a member of Rome s quindecimviral priesthood shows a marked interest in even the most detailed rituals of Roman religious life yet his portrayal of religious material also suggests that the system is under threat with the advent of the principate Some traditional rituals are forgotten as the shape of the Roman state changes while simultaneously a new form of cultic commemoration develops as deceased emperors are deified and the living emperor and his family members are treated in increasingly worshipful ways by his subjects This study traces the deployment of religious material throughout Tacitus narrative in order to show how he views the development of this cultic amnesia over time from the reign of the cryptic autocratic and oddly mystical Tiberius through Claudius failed attempts at reviving tradition to the final sacrilegious disasters of the impious Nero As the first book length treatment of religion in the Annals it reveals how these references are a key vehicle for his assessment of the principate as a system of government the activities of individual emperors and their impact on Roman society and cultural identity

Pro refrigerio animae: Death and Memory in East-Central Europe Angela Jianu, Gheorghe Lazăr, 2023-08-04 The historiography of death memory and testamentary practices is already abundant in Western Europe and a fairly large number of extra European regions For East Central Europe there are many short studies in various regional languages mainly on anthropological ethnographic aspects of the funeral rituals This is an edited collection of studies by international scholars on the interlocking themes of attitudes and discourses on death commemorative practices and inheritance testamentary strategies in the Balkans and East Central Europe These and other related themes are addressed comparatively and cover areas including Albania Bulgaria Romania Greece and areas of the former Yugoslavia Hungary and Austria from the perspective of imperial Ottoman and Habsburg legacies *Pro refrigerio animae* Death and Memory in East Central Europe contributes to this subject by linking anthropological religious cultural approaches to death to the legal economic aspects of inheritance commemoration adding a still absent East Central European and Habsburg Balkan and Ottoman dimension to the study of death memorialization and testaments and presenting an abundant primary and secondary material in English translation and thus placing research on death and testaments by East Central and Greek scholars within the international scholarly circuit

Speaking Memory Sherry Simon, 2016-12-01 *Speaking Memory* evokes the complex language scapes that form at the crossroads of culture and history in cities While engaging with current debates on the nature and role of translation in globalized urban landscapes the contributors offer a series of detailed and

nuanced readings of translational cities their histories their construction and transformation in memory and the artistic projects that tell their stories The three sections of the book highlight historical case studies conceptual issues and text based analyses of city scripts in particular as they relate to creative literary practices and language interventions on the surface of the city itself In this volume translation points to the dissonance of city life but also to the possibility of a generalized public discourse a space vital to urban citizenship where the convergence of languages can be the source of new conversations Essays cover a variety of topics and approaches bringing new voices and insights to discussions on multilingualism and translation in the urban contexts of cities including Dublin Montevideo Montreal Prague and Vilnius Defining cities as fields of translational forces where languages are both in conversation and in tension translation in Speaking Memory is stretched beyond its usual confines encompassing literary artistic and cultural practices that permeate everyday contemporary life Contributors include Liamis Briedis Vilnius University Matteo Colombi University of Leipzig Michael Cronin Dublin City University Michael Darroch Windsor University Roch Duval Universit de Montr al Andre Furlani Concordia University Simon Harel Universit de Montr al William Marshall Stirling University Sarah Mekdjian Universit Paris III Alexis Nouss Universit d Aix en Provence Katia Pizzi University of London Sherry Simon Concordia University Will Straw McGill University and Miriam Suchet Universit Paris III The Publishers' Trade List Annual ,1883
