Seaton, 2025-01-25 The last thing advertising art director Lucy Peterkin wants is to go home to outback Prickle Creek but family duty calls The one bright spot Her neighbour and first love Garth Mackenzie is back home too and their connection is as undeniable as ever After earning an engineering degree and working in the mines of Western Australia Garth has returned home for good He's ready to put down roots work the land he loves and build a future ideally with Lucy by his side But Lucy has no intention of trading her career and city life for the outback no matter how much Garth tempts her to stay But with her heart set on the city he knows convincing her to stay will take more than their old spark Can they bridge the gap between their dreams or will their different dreams force them apart NOTE Previously published in the US as Her Outback Cowboy

2017 Crystallization Wolfgang Beckmann, 2013-01-14 Crystallization is a natural occurring process but also a process abundantly used in the industry Crystallization can occur from a solution from the melt or via deposition of material from the gas phase desublimation Crystals distinguish themselves from liquids gases and amorphous substances by the long range order of its building blocks that entail the crystals to be formed of well defined faces and give rise to a large number of properties of the solid Crystallization is used at some stage in nearly all process industries as a method of production purification or recovery of solid materials Crystallization is practiced on all scales from the isolation of the first milligrams of a newly synthesized substance in the research laboratory to isolating products on the multi million tonne scale in industry The book describes the breadth of crystallization operations from isolation from a reaction broth to purification and finally to tailoring product properties In the first section of the book the basic mechanisms nucleation growth attrition and agglomeration are introduced It ensures an understanding of supersaturation the driving force of crystallization Furthermore the solubility of the substance and its dependences on process conditions and the various techniques of crystallization and their possibilities and limitations are discussed Last but not least the first part includes an intensive treatment of polymorphism The second part builds on the basics exploring how crystallization processes can be developed either batch wise or continuous from solution or from the melt A discussion of the purification during crystallization serves as a link between the two sections

where practical aspects and an insight using theoretical concepts are combined Mixing and its influence on the crystallization as well as the mutual interference of down stream processes with the crystallization are also treated Finally techniques to characterize the crop are discussed The third part of the book is dedicated to accounts of actual developments and of carried out crystallizations Typical pitfalls and strategies to avoid these as well as the design of robust processes are presented
