The Animated Film

Encyclopedia Graham Webb,2000 Animated films often bring to mind images of Saturday morning cartoons on television but at one time animated films both long and short were found mostly on the silver screen as part of the featured program In 1977 George Lucas even specially requested a cartoon to open Star Wars Duck Dodgers and the 24 1/2 Century featuring Daffy Duck In its rich history cinematic animation has developed from silent monochrome images to sound filled shorts that ran with newsreels and adventure serials to animation sequences used to enliven commercials or live action films and finally to feature films like Fantasia and Cinderella This encyclopedia covers all English language animation from the crucial first eighty years of its history From the popular to the obscure from Bugs to Mickey from the short to the feature nearly 7 000 items are covered Each entry includes production information date running time and a synopsis Much of the information compiled here is rare For example character voices once considered anonymous are here identified and animated films now lost because they were once considered expendable are here given the attention they deserve A complete index allows multiple points of access
