P. Canton, 2001-12 A Layman s Guide to Religion is a provocative factual often humorous personal study of evolution and religion The author is unsparing in his contempt for all religions and cults and for the hypocritical rascals the pied pipers who sidetrack their innocent victims robbing many of them of their most productive years The author finds those who claim to speak for God while defrauding the elderly of their life s savings especially loathsome One scholar who prefers anonymity remarked after reading the manuscript that when published this one thin volume would contain more common sense than the hundred of thousand dusty works by so

called theologians over the past several millennia The comment was most gratifying as the author would rather have the admiration of one intelligent person whom the author highly regards than the admiration and even reverence of a billion fools Bold blunt and unflinching this thin volume cuts through millennia of B S The author's purpose is not offend one religion but to denigrate all of them and hopefully replace religion with reason and common sense Targeting historical unpleasant facts in an engaging and humorous manner and the role of evolution the author shows where religion has today become a compost of hypocrisy and pretense and the root cause of all evil Plainly this volume contains All You Ever Wanted To Know About Religion Before You Put The Subject To Rest And Get On With Your Life *The Philosophy of Death: A Simple Guide to Big Ideas* Nova Martian, 2025-05-26 In *The Philosophy of Death A Simple Guide to Big Ideas* readers embark on an illuminating journey through one of humanity's most profound and enduring questions what does it mean to die and how should we understand our own mortality This accessible yet thorough guide interweaves biological philosophical and cultural perspectives on death exploring how individuals and societies across history have grappled with the realities of mortality From basic definitions and historical attitudes to the framing of key philosophical questions the book provides a foundational understanding for seasoned thinkers and curious newcomers alike Traversing the wisdom of ancient philosophy the contemplations of world religions and the advancements of modern science the book sheds light on the full spectrum of human responses to death Detailed chapters explore Greek Roman and Eastern traditions religious rituals and beliefs and medical breakthroughs in the understanding and prolonging of life Readers encounter the varied philosophical theories on death's nature its implications for meaning and morality and the ethical quandaries surrounding autonomy at life's end Through existentialism and cultural representations in art literature and popular media the book reveals the many ways death shapes the stories we tell and the lives we lead Yet the journey does not end with examination it offers guidance for living Drawing from grief studies mourning rituals and philosophical wisdom the final chapters provide practical strategies for accepting mortality and transforming the awareness of death into motivation for living fully By integrating insights from across disciplines and traditions *The Philosophy of Death* encourages readers to cultivate a thoughtful holistic outlook embracing the inevitability of death not as an end but as a vital impetus for meaning growth and authentic living **A Simple Guide to Understanding PTSD** Lisa Ficocelli, Austin Mardon, 2014-09-12 *A Simple Guide to Understanding PTSD* aims to help make understanding post traumatic stress disorder an easier task for everyone this is not only for those who suffer from PTSD but to those close to a victim as well From the origin and history of PTSD to strategies and tips to coping with and ultimately overcoming PTSD this book will cover all that and more *Village Medical Manual: A Layman's Guide to Health Care in Developing Countries* Mary Vanderkooi, 2000 *A Simple Guide to Experience Miracles* J. P. Moreland, 2021-11-16 *Does God Still Do Miracles Today A Simple Guide to Experience Miracles* will give you confidence in and awareness of the supernatural realm as you learn how to flourish spiritually by experiencing more miraculous

interventions in your life and ministry Internationally renowned philosopher J P Moreland looks at the nature of miracles and explains why bearing and receiving credible testimony to God s miraculous acts is a crucial feature of a mature Jesus follower He also shows how to distinguish a real miracle from a mere coincidence Miracles bring comfort to believers strengthening faith in God and creating boldness in our lives While miraculous healings have occurred frequently throughout church history Moreland provides data showing how the last fifty years have seen a massive outbreak of miracles and supernatural activity Today he argues the church should humbly expect to see more of these miraculous works of God than we do Moreland looks at topics like The relationship between sickness and suffering along with two different ways to pray for healing How to discern clearly the difference between a genuine miracle and a mere coincidence How to increase your faith that petitionary prayer really works and what to make of unanswered prayer Six ways God speaks to us and advice for hearing God wisely and biblically The role angels play in our lives how they appear to us and how to combat demonic influence The biblical basis for most Near Death Experiences and what we can learn from them A Simple Guide to Experience Miracles increases your expectation and hope that God can and often does miraculously intervene to bring help and comfort Moreland shows that it makes rational sense to step out and engage in employing Kingdom power and to strengthen courage to witness and act on behalf of the gospel of Jesus Filled with inspiring credible motivating accounts of miracles he covers five different kinds of supernatural activities and provides practical wisdom about how to begin practices such as healing prayer and learning to deal with the demonic

What to Do when Your Children Turn Into Teenagers David L. Bennett,2005 Every parent wonders if they are doing a good job When their kids become teenagers many begin to doubt themselves even more This title will change the way you parent your teenagers It covers what every parent needs to know about every stage of adolescence A Layman's View of Christianity Donald A. Dahlin,2002-01-31 This book is intended as a spiritual sword into the utter complacency of Christian orthodoxy The message and practices found in this book are spiritually guaranteed to reveal your hidden potentials and change your life to the degree that you read and apply its progressive and practical approach The true message of Jesus was obscured in orthodox Christian practices fulfilling the promise and greater works than this shall ye do John 14 12 The total message of Jesus was given during the latter portion of his life it was simple and not of great length it might fill a few pages or a chapter of a book The message appeared fragmented but told of spiritual knowledge that one could attain through a system of self government woven between parables or proverbs of human behavior with moral and spiritual percepts I found that Jesus had learned an approach that would help his fellowman that was composed of five factors 1 a spiritual understanding of the soul and the mind 2 the relationship of spiritual consultations and meditation as means of gaining spiritual knowledge 3 the power of prayer is a telepathic phenomenon for healing curses and for extra sensory perception 4 the laying on of hands for healing ones self or others 5 the ability of the body to heal itself from many ailments by fasting Experimenting with the power of intention as prayer I also learned a progressive means of extra sensory perception that went into contact with chemicals people plants and animals Having a chiropractic background I was in physical contact with people and learned that x ray vision is also possible Ill tell you about each of the chapters in my book a little later First I want you to know why this approach is correct Jesus was a Gnostic The Greek word gnos means knowingness or knowledge in the

fullest sense of the word it was a special knowledge of spiritual things Gnosticism was a mystical religious and philosophical doctrine of early Christian times Gnostics claimed that spiritual knowledge rather than faith was essential to salvation Salvation in a Gnostic sense would mean a spiritual search for knowledge toward perfection becoming a free spirit and recognizing ones relationship to a spiritual universe heaven created by the Supreme Being Otherwise an orthodox definition of salvation would mean a deliverance from sin and from punishment for sin redemption The Gnostic Christian seeks to discover the truth about God and spiritual matters through personal experience or revelation as intuition insight or cognition by counseling psyche guidance and meditation It is the opposite to being told what to believe Jesus was a true Gnostic when he said My doctrine is not mine but his who sent me If any man will do his will he shall know of the doctrine whether it be of God or whether I speak of myself John 7 16 17 This teaching implies that anybody anywhere at any time could know the truth through his own recognition of what he was teaching his disciples Jesus did not have to be on another planet to preach to be crucified on the cross etc in order for his message to be known Be ye perfect even as your Father which is in heaven is perfect Matthew 5 48 Jesus also said If you continue in my word you are truly my disciples and you will know the truth and the truth will make you free John 8 32 Paul the apostle of Jesus referred to this Gnostic concept Be not conformed to this world but be ye transformed by the renewing of your mind that you may find what is the good and acceptable and perfect will of God Romans 12 2 Learn to challenge It was a warning against mind control through hypnotic means or agreement without understanding The renewing of your mind is done through private meditation not through someones interpretation
