A Practical Guide to Scientific Writing in Chemistry Andrew Terhemmen Tyowua, 2023-03-31 Successful completion of postgraduate studies especially PhD and career advancement in academia strongly depend on the ability to publish scientific papers or books and attract research grants However many chemical scientists find preparing scientific papers and research grant and book proposals difficult partly because of insufficient training in writing and partly because there are few practical books to enable them to learn the art This step by step practical guide is intended mainly for postgraduate students and early career researchers in chemical science and the libraries that serve them but will also be useful to other scientists Key Features Improves the reader's chances of getting their manuscript published in chemistry journals Increases the likelihood of winning research grants in chemistry Takes a lead by the hand approach Contains chapters on the preparation of graphical abstracts and research highlights Uses sketches and other illustration styles to aid mental visualization of concepts Contains practical examples taken from published papers and successful research grant proposals

A Student's Guide to Academic and Professional Writing in Education Katie O. Arosteguy, Alison Bright, Brenda J. Rinard, 2019 This concise handbook helps

educators write for the rhetorical situations they will face as students of education and as preservice and practicing teachers. It provides clear and helpful advice for responding to the varying contexts, audiences, and purposes that arise in four written categories in education: classroom research, credential and stakeholder writing. The book moves from academic to professional writing, and chapters include a discussion of relevant genres, mentor texts with salient features identified, visual aids, and exercises that ask students to apply their understanding of the concepts. Readers learn about the scholarly and qualitative research processes prevalent in the field of education and are encouraged to use writing to facilitate change that improves teaching and learning conditions. At the heart of this book is a commitment to the value of teachers' voices.

Foreword by Mya Poe, director, Writing Program, Northeastern University. This book is one tool to help prospective educators embrace all the writing that is to come.

Anne Elrod, Whitney Penn State College of Education. The authors know the questions students might ask and the places where they might misstep. The book is supportive, analytical, logically sequenced, clear, and student friendly.

Tim Dewar, UC Santa Barbara. **Term Papers Step by Step: Planning, Research, and Writing** Clark Stevens, 1991. Unlike most textbooks that focus only on the technical points, these 50 worksheets go beyond basic term paper mechanics to help students overcome obstacles that cause stress and writing blocks. They offer practical strategies for students' most common problems, such as negative self-talk, trouble budgeting time, procrastination, being blocked for ideas, or getting bogged down in research. Topics present the entire research and writing processes in easy, manageable steps.
