Handbook of Indian Defence Policy Harsh V.

Pant,2015-10-06 India has the world's fourth largest military and one of the biggest defence budgets. It asserts its political and military profile in South Asia and the Indian Ocean region. The nation has been in the midst of an ambitious plan to modernize its largely Soviet era arms since the late 1990s and has spent billions of dollars on latest high tech military technology. This handbook canvasses over 60 years of Indian defence policy and the major debates that have shaped it. It discusses several key themes such as the origins of the modern armed forces in India, military doctrine and policy, internal and external challenges and nuclearization and its consequences. It includes contributions by well known scholars, experts in the field and policymakers and provides an annotated bibliography for further research. Presented in an accessible format, this lucidly written handbook will be an indispensable resource for scholars and researchers of security and defence studies, international relations and political science as well as for government think tanks and policymakers. *Police et*

Montre que les citoyens d'origine étrangère continuent de rencontrer des difficultés à faire reconnaître les droits au respect qui leur sont inhérents face aux forces de police en France. Plaide pour une réforme de la formation des policiers, notamment pour un recrutement reflétant l'image de la nature de la population française d'aujourd'hui. Policing, Popular Culture and Political Economy Robert Reiner,2017-07-05 Robert Reiner has been one of the pioneers in the development of research on policing since the 1970s as well as a prolific writer on mass media and popular culture, representations of crime and criminal justice. His work includes the renowned books *The Politics of the Police* and *Law and Order: An Honest Citizen's Guide to Crime and Control*, an analysis of the neo-liberal transformation of crime and criminal justice in recent decades. This volume brings together many of Reiner's most important essays on the police, written over the last four decades as well as selected essays on mass media and on the neo-liberal transformation of crime and criminal justice. All the work included in this important volume is underpinned by a framework of analysis in terms of political economy and a commitment to the ethics and politics of social democracy. *French National Cinema* Susan

Hayward,2006-09-07 This examination of France's national cinema takes its primary artefact, the feature film, and discusses both popular cinema and the avant-garde cinema that contests it. Susan Hayward argues that writing on French national cinema has tended to focus on either great filmmakers or on specific movements, addressing moments of exception rather than the global picture. Her work offers a thorough and much-needed historical textualisation of those moments and relocates them in their wider political and cultural context. Beginning with an ecohistory of the French film industry, she then traces the various movements in French cinema and the directors associated with them, including the avant-garde, Poetic Realist, New Wave and today's postmodern cinema. Her analysis includes, amongst other considerations, the social and political concerns these cinemas reflect. **Discerning President Obama's National Security Strategy** Kristen E. Boon,Douglas

The nouveau roman and Writing in Britain After Modernism Adam Guy, 2019-12-10 The nouveau roman and Writing in Britain After Modernism recovers a neglected literary history In the late 1950s news began to arrive in Britain of a group of French writers who were remaking the form of the novel In the work of Michel Butor Marguerite Duras Robert Pinget Alain Robbe Grillet Nathalie Sarraute and Claude Simon the hallmarks of novelistic writing discernible characters psychological depth linear chronology were discarded in favour of other aesthetic horizons Transposed to Britain's highly polarized literary culture the nouveau roman became a focal point for debates about the novel For some the nouveau roman represented an aberration and a pernicious turn against the humanistic values that the novel embodied For others it provided a route out of the stultifying conventionality and conformism that had taken root in British letters On both sides one question persisted given the innovations of interwar modernism to what extent was the nouveau roman actually new This book begins by drawing on publishers archives and hitherto undocumented sources from a wide range of periodicals to show how the nouveau roman was mediated to the British public Of central importance here is the publisher Calder Boyars and its belief that the nouveau roman could be enjoyed by a mass public The book then moves onto literary responses in Britain to the nouveau roman focusing on questions of translation realism the end of empire and the writing of the project From the translations of Maria Jolas through to the hostile responses of the circle around C P Snow and onto the literary debts expressed in novels by Brian W Aldiss Christine Brooke Rose Eva Figs B S Johnson Alan Sheridan Muriel Spark and Denis Williams the nouveau roman is shown to be a central concern in the postwar British literary field

The Price of Exclusion Eric Kurlander, 2006-08-01 The failure of Liberalism in Germany and its responsibility for the rise of Nazism has been widely discussed among scholars inside and outside Germany This author argues that German liberalism failed because of the irreconcilable conflict between two competing visions of German identity In following the German liberal parties from the Empire through the Third Reich Kurlander illustrates convincingly how an exclusionary racist Weltanschauung conditioned by profound transformations in German political culture at large gradually displaced the liberal universalist conception of a democratic Rechtsstaat Although there were some notable exceptions this widespread obsession with racial community Volksgemeinschaft caused the liberal parties to succumb to ideological lassitude and self contradiction paving the way for National Socialism

Par une synthèse d'expériences vécues, l'auteur explique que le commissaire de police doit sentir un quartier, une cité ou une ville pour insuffler des doses de sécurité plus ou moins fortes. Suivant une échelle de violence de quatre degrés, l'auteur propose des modes d'intervention proportionnés au trouble afin de rétablir puis de maintenir la tranquillité publique dans les lieux. **Annuaire militaire**, 1926
