

Chapter 1

Managerial Accounting and Cost Concepts

Questions

1-1 The three major types of product costs in a manufacturing company are direct materials, direct labor, and manufacturing overhead.

1-2

- a. Direct materials are an integral part of a finished product and their costs can be conveniently traced to it.
- b. Indirect materials are generally small items of material such as glue and nails. They may be an integral part of a finished product but their costs can be traced to the product only at great cost or inconvenience.
- c. Direct labor consists of labor costs that can be easily traced to particular products. Direct labor is also called "touch labor."
- d. Indirect labor consists of the labor costs of janitors, supervisors, materials handlers, and other factory workers that cannot be conveniently traced to particular products. These labor costs are incurred to support production, but the workers involved do not directly work on the product.
- e. Manufacturing overhead includes all manufacturing costs except direct materials and direct labor. Consequently, manufacturing overhead includes indirect materials and indirect labor as well as other manufacturing costs.

1-3 A product cost is any cost involved in purchasing or manufacturing goods. In the case of manufactured goods, these costs consist of direct materials, direct labor, and manufacturing overhead. A period cost is a cost that is taken directly to the income statement as an expense in the period in which it is incurred.

1-4

- a. Variable cost: The variable cost per unit is constant, but total variable cost changes in direct proportion to changes in volume.
- b. Fixed cost: The total fixed cost is constant within the relevant range. The average fixed cost per unit varies inversely with changes in volume.
- c. Mixed cost: A mixed cost contains both variable and fixed cost elements.

1-5

- a. Unit fixed costs decrease as the activity level increases.
- b. Unit variable costs remain constant as the activity level increases.
- c. Total fixed costs remain constant as the activity level increases.
- d. Total variable costs increase as the activity level increases.

1-6

- a. Cost behavior: Cost behavior refers to the way in which costs change in response to changes in a measure of activity such as sales volume, production volume, or orders processed.
- b. Relevant range: The relevant range is the range of activity within which assumptions about variable and fixed cost behavior are valid.

1-7 An activity base is a measure of whatever causes the incurrence of a variable cost. Examples of activity bases include units produced, units sold, letters typed, beds in a hospital, meals served in a cafe, service calls made, etc.

1-8 The linear assumption is reasonably valid providing that the cost formula is used only within the relevant range.

Mcgraw Hill Managerial Accounting Solutions Ch 7

GARRISON

Mcgraw Hill Managerial Accounting Solutions Ch 7:

Managerial Accounting for Libraries and Other Not-for-profit Organizations G. Stevenson Smith, 2002-05 Accounting is more than just budgeting for and recording costs Applying the principles of managerial accounting can set you apart as an organization that establishes and achieves mission based business goals The managerial accounting approach outlined in this complete update of a classic text will help you to plan for the short and long terms by applying accounting principles to your unique nonprofit setting The only book of its kind this step by step guide focuses on accounting methods that fit the nonprofit world such as responsibility accounting life cycle costing and activity based accounting as an alternative to traditional cost reporting Each method is explained and illustrated within the nonprofit context New to this edition are current cost estimates new or updated figures on break even analysis lease alternatives journal entries and variable and fixed costs and a quick reference glossary that will help you talk the talk The only accounting book you ll need to get your books in tip top shape this edition provides library managers the tools and methods to Direct and monitor resources to communicate financial information Control costs using long term for
