

The Library of Congress

The Library of Congress is in Washington D.C.. President John Adams signed a bill in 1800 that created the Library of Congress as a library for members of Congress, with only books that they might need for their work. However, during the War of 1812 the small library was destroyed in a fire set by British troops during an invasion. An **avid** reader, former president Thomas Jefferson donated his collection of books to re-establish the library. Jefferson believed that all subject matter was important for the **legislature**, not just what seemed obvious for the work of Congress. The practice of collecting books on all kinds of subjects has gone on since. This is reflected by the library's **comprehensive** collection of books. The Library of Congress began collecting **copyrighted** books. When they ran out of space in the Capitol, a new building was built on the National Mall in 1886. It still stands there today. The library also researches American life, documenting and keeping multimedia records of unique cultures, societies and ways of life in the United States.

Vocabulary

avid - having enthusiastic or dedicated interest for something

legislature - a group of people who make laws

comprehensive - thorough, extensive

copyrighted - protected by law from being copied without permission or credit

Review Questions:

1. The United States is one of the largest countries in the world with connections to many other countries who we buy products from, who we sell products to, and who we aid and interact with. Why is it important for the United States to keep copies of books on all subjects in the Library of Congress?

2. Your town probably has a library, as most towns do. What do you think is different about the Library of Congress from other libraries?
