Lining Out the Word William T. Dargan, 2006-06-27

This book a milestone in American music scholarship is the first to take a close look at an important and little studied component of African American music one that has roots in Europe but was adapted by African American congregations and went on to have a profound influence on music of all kinds from gospel to soul to jazz

Lining out also called Dr Watts hymn singing refers to hymns sung to a limited selection of familiar tunes intoned a line at a time by a leader and taken up in turn by the congregation

From its origins in seventeenth century England to the current practice of lining out among some Baptist congregations in the American South today William Dargan's study illuminates a unique American music genre in a richly textured narrative that stretches from Isaac Watts to Aretha Franklin and Ornette Coleman

Lining Out the Word traces the history of lining out from the time of slavery when African American slaves adapted the practice for their own uses blending it with other music such as work songs

Dargan explores the role of lining out in worship and pursues the cultural implications of this practice far beyond the limits of the church showing how African Americans wove African and European elements together to produce a powerful and unique cultural idiom

Drawing from an extraordinary range of sources including his own fieldwork and oral sources Dargan offers a compelling new perspective on the emergence of African American music in the United States

"I Will Sing the Wondrous Story" David W. Music, Paul Akers Richardson, 2008

Baptists have a long and rich heritage of congregational song

The hymns Baptists have sung and the books from which they have sung them have been shaping

forces for Baptist theology worship and piety Baptist authors and composers have provided songs that have made an impact not only among Baptists in America but also across denominational and geographic lines Congregational singing continues to be a key component of Baptist worship in the twenty first century Beginning with an overview of the British background this book is a survey of the history of Baptist hymnody in America from Baptist beginnings in the New World to the present Its intent is to help the reader better understand the background against which current Baptist congregational song practices operate Unlike earlier writings on the subject this book provides both comprehensive coverage and a continuous narrative It gives thorough attention to the major Baptist bodies in America as well as calling attention to the contributions of significant smaller groups The British Baptist background is dealt with in an introductory section The book also includes many texts and tunes as illustrations of the topics being discussed and focuses on some of the contributions of Baptist authors and composers to the repertory of congregational song Book jacket

Hymns and Hymnody III John Forest, Mark A. Lamport, Vernon M. Whaley, 2020-10-29 Hymns and the music the church sings are tangible means of expressing worship And while worship is one of if not the central functions of the church along with mission service education justice and compassion and occupies a prime focus of our churches a renewed sense of awareness to our theological presuppositions and cultural cues must be maintained to ensure a proper focus in worship Hymns and Hymnody Historical and Theological Introductions is a 60 chapter three volume introductory textbook describing the most influential hymnists liturgists and musical movements of the church This academically grounded resource evaluates both the historical and theological perspectives of the major hymnists and composers that have impacted the church over the course of twenty centuries Volume 1 explores the early church and concludes with the Renaissance era hymnists Volume 2 begins with the Reformation and extends to the eighteenth century hymnists and liturgists Volume 3 engages nineteenth century hymnists to the contemporary movements of the twenty first century Each chapter contains these five elements historical background theological perspectives communicated in their hymns compositions contribution to liturgy and worship notable hymns and bibliography The mission of Hymns and Hymnody is 1 to provide biographical data on influential hymn writers for students and interested laypeople and 2 to provide a theological analysis of what these composers have communicated in the theology of their hymns We believe it is vital for those involved in leading the worship of the church to recognize that what they communicate is in fact theology This latter aspect we contend is missing yet important in accessible formats for the current literature
