Natural Science Gauteng Provincial Paper 2014:

Anatomy of a South African Karst Hydrosystem Philip J. Hobbs, Harrison Pienaar, Eddie van Wyk, Yongxin Xu, 2022-08-05

This book combines the results of the research activities in the assessment of water resources environment and an integrated water resource monitoring program to support preservation efforts of the aquatic environment of the Cradle of Humankind COH World Heritage Sites. A poor understanding of the surface and groundwater resources of the COH property has precipitated often alarmist reporting in the media regarding the negative impacts associated with various sources of poor quality water. The most notable of these is the acid mine drainage threat to karst ecosystems and fossil sites across the property. These circumstances have generated wide and considerable concern for the preservation of the UNESCO inscribed fossil sites and integrity of the water resources of the property.

Twenty Years of Education Transformation in Gauteng 1994 to 2014 Maringe, Felix, Prew, Martin, 2015-05-05. Twenty Years of Education Transformation in Gauteng 1994 to 2014. An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994. These essays talk to what a provincial education department does and how and why it does these things, whether it be about policy resourcing or implementing projects. Each essay is written by one or more specialist in the relevant focus area. The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader. It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years, both nationally and provincially. There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past. We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years.

Space Operations Craig Cruzen, Michael Schmidhuber, Young H. Lee, 2022-03-15. This book includes a selection of reviewed and enhanced contributions presented at the SpaceOps 2021, the 16th International Conference on Space Operations held virtually in May 2021. The chapter selections were made based upon their relevance to the current space operations community. The contributions represent a cross section of three main subject areas: Mission Management, management tasks for designing, preparing and operating a particular mission, Spacecraft Operations, preparation and implementation of all activities to operate a space vehicle crewed and uncrewed under all conditions, and Ground Operations, preparation, qualification and operations of a mission dedicated ground segment and appropriate infrastructure including antennas, control centers and communication means and interfaces. The book promotes the SpaceOps Committee's mission to foster the technical

interchange on all aspects of space mission operations and ground data systems while promoting and maintaining an international community of space operations experts *Towards applying a green infrastructure approach in the Gauteng City-Region* Christina Culwick, Samkelisiwe Khanyile, Kerry Bobbins, Stuart Dunsmore, Anne Fitchett, Lerato Monama, Raishan Naidu, Gillian Sykes, Jennifer van den Bussche, Marco Vieira, 2019-12-11 In the context of heightened climate variability thinking about ways to redesign our urban areas with more sustainable infrastructure solutions is becoming more and more important Green infrastructure GI is emerging as an alternative approach to traditional grey infrastructure in urban planning and development Its emergence can be understood in terms of the growing demand for infrastructure and services increased concerns over natural resource constraints and climate change and the negative impacts associated with traditional approaches to designing and building cities It has been proposed that GI can provide the same services as traditional infrastructure at a similar capital cost while also providing a range of additional benefits However despite the increasing examples of successful urban GI applications traditional infrastructure continues to dominate due to the lack of systematic evidence to support GI implementation As a result there has been an increase in calls from policy and decision makers for a greater evidence base on the benefits of GI as well as for practical guidelines on its implementation Towards applying a green infrastructure approach in the Gauteng City Region is the GCRO s third report in its ongoing research into Green assets and infrastructure The first two reports in this project series were more theoretically grounded and policy oriented whereas this third report is more practical in nature The first report explored the basic principles around GI assessed the extent of ecological features in Gauteng and the way governments in the province think about planning and maintenance of green assets The second report responded to some of the challenges identified in the first report and in particular the importance of government officials and practitioners in exploring how international green infrastructure plans could be applied in the Gauteng context This third report builds on the findings of the aforementioned reports and the project s CityLab series which highlighted the need to build an evidence base as critical for garnering support for and as well as enhancing investment in the GI approach Unlike the more theoretically grounded earlier reports this report comprises four technical sections and practical reflections on how a GI approach could be incorporated into urban planning in the GCR and in other similar urban contexts *Forensic Entomology* Jason H. Byrd, Jeffery K. Tomberlin, 2019-11-27 Forensic Entomology The Utility of Arthropods in Legal Investigations Third Edition continues in the tradition of the two best selling prior editions and maintains its status as the single most comprehensive book on Forensic Entomology currently available It includes current in the field best practices contributed by top professionals in the field who have advanced it through research and fieldwork over the last several decades The use of entomology in crime scene and forensic investigations has never been more prevalent or useful given the work that can be done with entomological evidence The book recounts briefly the many documented historical applications of forensic entomology over several thousand years Chapters examine the biological

foundations of insect biology and scientific underpinnings of forensic entomology the principles that govern utilizing insects in legal and criminal investigations The field today is diverse both in topics studied researched and practiced as is the field of professionals that has expanded throughout the world to become a vital forensic sub discipline Forensic Entomology Third Edition celebrates this diversity by including several new chapters by premier experts in the field that covers such emerging topics as wildlife forensic entomology microbiomes urban forensic entomology and larval insect identification many of which are covered in depth for the first time The book will be an invaluable reference for investigators legal professionals researchers practicing and aspiring forensic entomologists and for the many students enrolled in forensic science and entomology university programs
