

GEOMETRY BOOT CAMP

GEOMETRY is math that studies POINTS, LINES, ANGLES, and SHAPES.

1. A **POINT** is what everything else in geometry is made of. Think of a point as a DOT. Every shape, every angle, every line is made up of POINTS.

2. A **LINE** is basically a lot of POINTS in a straight path. Lines are used to make other shapes like triangles and rectangles.

There are **THREE** types of LINES.

There is the basic **LINE** which goes on and on forever in both directions (infinity and beyond!).

Line

A **LINE SEGMENT** is just a part of a line that ends at both directions.

Line Segment

Ray

Finally, a **RAY** is a line that begins at one endpoint and goes on and on forever in one direction.
