

Vietcong military tactics.

- **Guerrilla warfare**

Guerrilla warfare is the art of using knowledge of the landscape to avoid open battle with the enemy and to launch raids and surprise attacks, before disappearing back into the undergrowth. The Vietcong had experience of doing this while fighting the Japanese and the French after World War Two - they were very familiar with the terrain and the climate. They used the Ho Chi Minh Trail, which stretched from North Vietnam to the South, to keep their forces supplied.

- **Support from peasants**

The Vietcong won the 'hearts and minds' of the South Vietnamese peasants. They would offer to help them in their daily work and also promised them land, more wealth and freedom under Ho Chi Minh and the communists. It was difficult for American troops to know who was a Vietcong and who was not.

- **Ho Chi Minh Trail:**

Ho Chi Minh Trail: Vietcong guerrillas were kept well supplied by a constant stream of weapons from the North. These were carried on foot, by bicycle and mule along the Ho Chi Minh Trail - a jungle trail which wound through the neighbouring countries of Laos and Cambodia and which was bombed by the US Army but never fully disrupted.

The Vietcong had a hidden system of tunnels stretching over 200 miles. There were hospitals, armouries, sleeping quarters, kitchens and wells underground. These tunnel systems could hide thousands of Vietcong which helped them fight their guerrilla war. It would be the job of US 'tunnel rats' to search these tunnels. However, they were often booby-trapped with spikes and grenades.

The Rise of Africa's Middle Class Henning Melber, 2016-12-15 Across Africa a burgeoning middle class has become the poster child for the Africa rising narrative Ambitious aspirational and increasingly affluent this group is said to embody the values and hopes of the new Africa with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as

important agents of both economic development and democratic change This narrative however obscures the complex and often ambiguous role that this group actually plays in African societies Bringing together economists political scientists anthropologists and development experts and spanning a variety of case studies from across the continent this collection provides a much needed corrective to the received wisdom within development circles and provides a fresh perspective on social transformations in contemporary Africa *DRHA2014 Proceedings / Full Papers* Anastasios Maragiannis,2015-08-12

Why are the daughters and sons of Far East prisoners of war still captivated by the stories of their fathers What is it that compels so many of the children after so many years to search for the details of their fathers captivity And how over the decades have they come to terms with their childhood memories In his book Terry Smyth treads new ground by examining the processes through which the children s memory practices came to be rooted in the POW experiences of their fathers By following a life course approach and a psychosocial methodology the book demonstrates how memory and trauma were worked into the social and cultural lives of individual children and explores how the relationship between their inner psychic worlds and subsequent memory practices unfolded against a challenging and morally ambivalent geopolitical background The book invites readers to engage with the author in a journey of exploration and self reflection with elements of auto ethnography adding richness to the text Enlivened by interview extracts case study material and ethnographic observations this work opens up fresh and ambitious perspectives on the personal legacies of war *Chapters on Asia: Selected papers from the Lee Kong Chian Research Fellowship (2021)*
