Weak Outcomes of South Africa's Education System Mr.Montfort Mlachila,Tlhalefang Moeletsi,2019-03-01 While South Africa has made significant improvements in basic and tertiary education enrollment the country still suffers from significant challenges in the quality of educational achievement by almost any international metric The paper finds that money is clearly not the main issue since the South Africa s education budget is comparable to OECD countries as a percent of GDP and exceeds that of most peer sub Saharan African countries in per capita terms The main explanatory factors are complex and multifaceted and are associated with insufficient subject knowledge of some teachers history race language geographic location and socio economic status Low educational achievement contributes to low productivity growth and high levels of poverty unemployment and inequality Drawing on the literature the paper sketches some policy considerations to guide the debate on what works and what does not

Grid-locked African Economic Sovereignty Warikandwa, Tapiwa Victor,Nhemachena, Artwell,2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the

structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions *Pearl Buck in China* Hilary Spurling,2010-06 One of the twentieth century s most extraordinary Americans Pearl Buck was the first person to make China accessible to the West She recreated the lives of ordinary Chinese people in *The Good Earth* an overnight worldwide bestseller in 1932 later a blockbuster movie Buck went on to become the first American woman to win the Nobel Prize for Literature Long before anyone else she foresaw China s future as a superpower and she recognized the crucial importance for both countries of China s building a relationship with the United States As a teenager she had witnessed the first stirrings of Chinese revolution and as a young woman she narrowly escaped being killed in the deadly struggle between Chinese Nationalists and the newly formed Communist Party Pearl grew up in an imperial China unchanged for thousands of years She was the child of American missionaries but she spoke Chinese before she learned English and her friends were the children of Chinese farmers She took it for granted that she was Chinese herself until she was eight years old when the terrorist uprising known as the Boxer Rebellion forced her family to flee for their lives It was the first of many desperate flights Flood famine drought bandits and war formed the background of Pearl s life in China Asia was the real the actual world she said and my own country became the dreamworld Pearl wrote about the realities of the only world she knew in *The Good Earth* It was one of the last things she did before being finally forced out of China to settle for the first time in the United States She was unknown and penniless with a failed marriage behind her a disabled child to support no prospects and no way of telling that *The Good Earth* would sell tens of millions of copies It transfixed a whole generation of readers just as Jung Chang s *Wild Swans* would do more than half a century later No Westerner had ever written anything like this before and no Chinese had either Buck was the forerunner of a wave of Chinese Americans from Maxine Hong Kingston to Amy Tan Until their books began coming out in the last few decades her novels were unique in that they spoke for ordinary Asian people translating my parents to me said Hong Kingston and giving me our ancestry and our habitation As a phenomenally successful writer and civil rights campaigner Buck did more than anyone else in her lifetime to change Western perceptions of China In a world with its eyes trained on China today she has much to tell us about what lies behind its astonishing reawakening Paper Industry ,1962
