A Show of Hands Ileana Parvu, 2024-12-13 In contrast to the divide between conception and execution advocated by Anglo American artists in the second half of the 1960s this book reappraises conceptual art by examining it from the perspective of craft The emphasis on craft shifts the focus from the Western art system to its margins where creators were relegated to the status of mere artisans in the colonial context on the pretext that attaining that of artists was beyond their reach From this peripheral point of view the book shows that work carried out with artisanal means can lead to conceptual practice Moreover this shift in perspective provides a new understanding of several positions within conceptualism which ultimately appears as an ongoing reflection on the role of the hands making and craft Look inside *Watson's Weekly Art Journal*, 1869 **Craft Lab for Kids** Stephanie Corfee, 2020-05-26 Through 52 fun customizable crafts activities Craft Lab for Kids promotes creativity and hands on making for kids age 8 and up **Cosmopolitan Art Journal**, 1857

Psychoanalytic Perspectives on Art, V. 3 Mary M. Gedo, 2013-05-13 This new hardcover annual offers a unique scholarly format an interdisciplinary dialogue that it is hoped will foster the development of a sound useful methodology for applying psychoanalytic insight to art and artists The series provides a medium for those who study art those who interpret it and occasionally those who create it formally to explore the meaning of an artistic work as the direct reflection of the inner world of its creator Within each volume individual topics are addressed by either an art historian or a psychoanalyst with a response frequently tendered by an expert from the other field Reviews of important books of cross disciplinary interest are treated in a similar manner and include rebuttals by the authors themselves It is precisely this exchange of ideas among scholars with difference perspectives on the meaning of a work of art that sets PPA apart from the standard art history publication Its depth of scholarship coupled with its innovative format make it a fascinating addition to the burgeoning field of psychoanalytic studies of art history **The Sinister Side** James Hall, 2008-10-23 The Sinister Side reveals a hidden symbolic language in the visual arts that of the perceived differences between the left and right sides of the body Long forgotten or misunderstood it is a symbolism that has been interpreted by artists differently through the centuries and that sheds new light on some of our greatest works of art *Douglas MacAgy and the Foundations of Modern Art* Curatorship David R.
