Metzger-Traber,2018-05-15 This book posits that the refugee crisis may actually be a crisis of identity in a rapidly changing world It argues that Western conceptions of the individual Self shape metaphors of political homes and thus the geopolitics of belonging and exclusion Metzger Traber creatively re conceives political belonging by perceiving the interconnection of each Self through its most immediate home the breathing body On an experimental literary journey through her own past and that of Germany she puts political philosophy in conversation with somatic and spiritual insight to expand notions of Self and Home Then she asks What ethical imperatives arise What kinds of homes and homelands would we create if we no longer thought we ended at our skin **The Literary Guide and Rationalist Review** ,1914 **Congressional Record** United

the Ministries of Defence and the armed forces in particular So the Bologna Declaration can be seen as crucial leverage for the development of in house academic degree programs as a fundamental part of officers education With this volume the editors of NL ARMS 2019 strive to offer a platform to both academics and military and civilian practitioners as well as to combinations of these to reflect and share their thoughts on officers education before and after Bologna both in The Netherlands and abroad To this end controversies and challenges affecting various aspects and systems of officers education have been grouped into five themes Respectively the first four themes comprise institutional settings and change educational philosophy educational challenges and reflective practices and didactical solutions The fifth theme international perspectives provides insights into the strategic environments and challenges faced by sister academies as well as ways to further officers education across Europe such as offered by Erasmus programs All the editors of this year s volume are affiliated with the Faculty of Military Sciences of the Netherlands Defence Academy in Breda The Netherlands
