Iverson, 2013-06-20 This book provides users of the Wechsler Adult Intelligence Scale WAIS IV with information on applying the WAIS IV including additional indexes and information regarding use in special populations for advanced clinical use and interpretation The book offers sophisticated users of the WAIS IV and Wechsler Memory Scale WMS IV guidelines on how to enhance the clinical applicability of these tests The first section of the book provides an overview of the WAIS IV WMS IV and new Advanced Clinical Solutions for Use with the WAIS IV WMS IV ACS In this section examiners will learn Normal versus atypical score variability Low score prevalence in healthy adults versus clinical populations Assessing whether poor performance reflects a decline in function or is the result of suboptimal effort New social cognition measures found in the ACS are also presented The second part focuses on applying the topics in the first section to specific clinical conditions including recommended protocols for specific clientele e g using demographically adjusted norms when evaluating individuals with brain injury

Common clinical conditions are discussed including Alzheimer's disease, mild cognitive impairment, traumatic brain injury and more. Each chapter provides case examples applying all three test batteries and using report examples as they are obtained from the scoring assistant. Finally, the use of the WAIS IV, WMS IV and the ACS in forensic settings is presented. Coverage of administration and scoring of WAIS IV, WMS IV and ACS. Information contained on the use of WAIS IV with special populations. Case studies in each chapter. Written by the creators of WAIS IV, WMS IV and ACS.

Forensic Mental Health Evaluations in the Digital Age Ashley B. Batastini, Michael J. Vitacco, 2020-02-24. This is the first book devoted to the use of social media and other internet derived data in forming forensic clinical opinions of behavior. Designed for mental health practitioners, it outlines the challenges and the benefits of incorporating digital information in forensic assessments. It offers best practice guidelines geared to both criminal and civil psycho-legal questions. Each chapter includes a brief overview of the psycho-legal issues, clinical applications of consulting internet based data, ethical and legal considerations, and real life identified case examples. This book provides guidance to the clinician in an emerging technological environment in which there are few resources and ensures a more scientific and legally sound practice.

Assessing Intelligence in Children and Adolescents John H. Kranzler, Randy G. Floyd, 2020-08-27. This practical guide to the intellectual assessment of children and adolescents in schools is widely used both by practicing school psychologists and by instructors and students in graduate school psychology programs. This second edition includes evidence based best practices for the use and interpretation of intelligence tests in decision making by counselors, teachers, administrators and other school personnel. While the assessment of intelligence has long been mandated by law for eligibility determination for special education and related services, there is widespread disagreement about the use and interpretation of intelligence tests. This is the only intellectual assessment book to address this issue by critically reviewing the scientific

evidence regarding the critical role played by intelligence tests in the schools for the determination of eligibility for special education and related services alongside the plethora of practical information New to this edition New chapter that reviews the methodology used in research on interventions that target cognitive abilities and the results of that research as well as literature on aptitude by treatment interactions in the cognitive domain New chapter on the WISC V its history and an in depth description of its organization materials and scores for both the traditional administration format and the new Q interactive format New section titled Where in the Brain is Intelligence as well as expanded discussions of contemporary training programs designed to increase intelligence Revised Screening Tool for Assessment forms to address English language proficiency and acculturation Updated entries for four intelligence tests and added an entry for the Detroit Test of Learning Abilities Fifth Edition Hammill McGhee Ehrlert 2018 Added sections focused on test accommodations and behavior management during testing Recommendations for incorporating emergent assessment technology e g tablet based test administration New content addressing different styles of reports as well as a summary of new recommendations from the recently published Publication Manual of the American Psychological Association Seventh Edition 2019 Review of the most recent ethical guidelines from the American Psychological Association and the National Association of School Psychologists
