

How to Write an Autobiography

Tips to write an autobiography:

Like the examples of autobiographies discussed above, any autobiography needs to deal with a few aspects:

Introduction: One needs to give an introduction about themselves in the autobiography. This introduction needs to contain basic aspects like name, where you live, when and where were you born, what conditions were you born in, etc.

You in totality: This part of the autobiography deals with a general point of view, that you hold about yourself. It also needs to let the reader be able to visualize you in the current day. You need to include your current situations, habits, lifestyle etc.

Life, in general: This part of the autobiography deals with your view about life, on a general note. You need to include your understanding of life and its implications. This part is your route to propound your belief. So, make it descriptive.

View and aims: Here, you talk about where do you see yourself in the future or what you expect to happen in the future. This part, mostly, should be in compatibility with the previous aspect, else your reader could get confused and lose interest in the book.

Conclusion: Like all stories, an autobiography also needs to have an apt conclusion. You can leave a lasting impression on the reader with the help of your conclusion. Remember, you do not need to have a "moral of the story". You can simply end it with hope, if you like.

Always remember, it is your autobiography, not an example of an autobiography, you can write it the way you like. So, experiment and enjoy. As they say, "if you find it interesting while writing it, the reader will find it interesting while reading it". This is where I sign off. Hope to find your autobiography on the stands soon!!

Student Practice Test Booklet in Reading and Writing Leslie Knight, 2015-10-13. This test booklet has some unique qualities. It allows the students to get an idea of the kinds of passages and the level of vocabulary used in questioning. But the uniqueness does not end there. The booklet also provides teachers and parents with the instruments that will improve the ability of the children to complete the state tests. Know that teachers and parents can begin by allowing their fourth grade children to work on passages intended for third graders and move forward and vice versa. Other grades can do the same. Everyone has the opportunity to look at the passages and questions presented to the other grades. Note carefully the approaches to the questions because there is a specific vocabulary used in the questions. There is a wealth of writing exercises that require the students to think deeply. Building stamina is very important. Length of passages and level of difficulty are considered. Each grade is presented with one mini test and three full length tests. The parents and the teachers can actually simulate the real test and give themselves time to identify the children's weaknesses and strengths. Therefore they can work on these weaknesses and reinforce concepts at the same time. At the end of every test there are additional questions designed to challenge the children and encourage the teachers and the parents to create their own questions from the passages. There is a teachers edition that identifies the answers to all questions and the types of questions. For example there may be questions that require the students to know main idea, authors purpose, compare and contrast and so on. These are indicated in the teachers edition. There are writing exercises for the students to do. Useful hints relating to the kinds of responses are also presented in the teachers edition. A suggested rubric is also included. This book is inclusive of all including Special Needs Students who must write the same tests as other students and whose grades and progress impact the general performance of the school.
