The Many Mini Adventures of a Small-Town Mailman Jesse Lee Hatfield, 2014-09-24 The mail must go through And it does in this humorous look at the real life experiences of mailmen in a small Southern town that goes by the zip code 72058 Greenbrier smack dab in the middle of Arkansas offers a hotbed of short stories about mail delivery Neither rain nor sleet nor gloom of night stays these couriers from the swift completion of their appointed rounds is the unofficial motto of the U S Postal Service But see what happens when the unexpected occurs Chapters include stories about the variety of customers and their mailboxes the kids pets critters wildlife and co workers

encountered the responsibilities of the job the difficulties of weather and the heavy mail volume during holiday seasons There are also descriptions of some of the unique mail that must be dealt with such as live bees broken juice bottles and even addressed beach balls Most stories come from mailman Jesse Lee Hatfield s personal experiences things that happened to his wife Suzy on her rural route and from co workers at the post office The book is embellished with photographs and written over a five year span covering the 23 years that Jesse has been a carrier Says the author Our small post office is just like any everyday business office with one exception Together we know EVERYONE in town Select Your Electric Car Dale Stubbart, An Electric Car is often referred to as an electric vehicle or EV In Select Your Electric Car I explore the various options of EVs available in the United States If you live in California or in one of the other states which have similar zero emission vehicle standards you will have more choices These states have laws that car companies selling cars in their state must provide a certain percentage of EVs I am going to focus on the EVs which are widely available in the US now 2018 I ll compare them so that hopefully you will be able to purchase the EV which fits your lifestyle or the lifestyle which you plan to adopt once you own an EV I ll also look at a few other EVs which are not as widely available In 2019 car dealers will be offering more models of EVs nationally at least that s the plan I m thinking that you might want a car with more of a track record So I won t be saying as much about those models though I will mention them The US ranks seventh in number of EVs sold following China United Kingdom France Sweden Netherlands and Norway who is at 1 If you wanted to wait until 2019 to drive your EV and you had 200 000 200K to spare and you had a Commercial Driver s License CDL or could hire a driver who did why not just purchase a Tesla Electric Semi After all Elon Musk is now saying it will have a 600 mile range Even if he s only 75% correct that s still a 450 mile range I could drive into town Olympia every day of the week and up to the big city Seattle on the weekend And I still wouldn t have to charge my rig And in Aug 2018 a Tesla Semi made it from Coast to Coast across the US It did have to be recharged But the driver was able to find charging stations which were powerful enough to charge it But where would I park the thing Besides I don t have a CDL And the few people I know who do aren t interested in being my personal chauffeur I also definitely don t have 200K that I can afford to spend on my next vehicle I won t talk about the Tesla Semi in this book You can read about that vehicle in my book The Hybrid Vehicle I ll also mention techniques for driving an EV which will expand their range At least these techniques work when driving my 2015 Electric Nissan Leaf
