Stowe,1918 **Becoming ...** Jack Mierop,2013-04 Let us create the lives we were born to live it s our time Belief systems are individual and subjective Without understanding their origins we become stuck in patterns and cycles there is difficulty moving forward Becoming acts as a mirror a guide for those who could use some help figuring out why we find it so difficult to remove ourselves from the negative situations life throws our way Through the exploration of self perception and the factors that influence the way we live and behave we can rise above fixed patterns and transform the self Employing common sense wisdom in an engaging read Mierop maps out ways to avoid the encumbrances with which negative experiences and self doubt often imprison us **The Living Age** ,1844 *Littell's Living Age* ,1844 **Freeing Yourself from the Cycle** Geshe Palden Drakpa,2013-01-01 Freeing Yourself from the Cycle is a compilation of Geshe Palden Drakpa s four essays on Buddhist philosophy and practice The first two essays are on Buddhist philosophy and the rest are on Buddhist practice Dependent origination is the foundation of Buddhist philosophy and the theory is relevant to every aspect of existence including that of our own The essays on Buddhist philosophy also include an analysis of what creates sentient beings and the environments in which they live and what protects sentient beings from different dangers The remaining essays are on Buddhist practices of generating love and compassion for the benefit of others engaging in virtuous practices for the benefit of all and undertaking ritual practices such as offering prostrations and seeking audience of spiritual masters to cleanse oneself of the cognitive and afflictive obscurations These explanatory essays are intended for those who are new to Buddhist philosophy and who may doubt the benefits one can gain from simple practices such as circumambulation offering water lighting lamps *Writing Self, Writing Empire* Rajeev Kinra,2015-09-22 A free ebook version of this title is available through Luminos University of California Press s new open access publishing program for monographs Visit www.luminosoa.org to learn more Writing Self Writing Empire examines the life career and writings of the Mughal state secretary or munshi Chandar Bhan Brahman d c 1670 one of the great Indo

Persian poets and prose stylists of early modern South Asia Chandar Bhan's life spanned the reigns of four different emperors Akbar 1556-1605 Jahangir 1605-1627 Shah Jahan 1628-1658 and Aurangzeb Alamgir 1658-1707 the last of the Great Mughals whose courts dominated the culture and politics of the subcontinent at the height of the empire's power territorial reach and global influence As a high caste Hindu who worked for a series of Muslim monarchs and other officials forming powerful friendships along the way Chandar Bhan's experience bears vivid testimony to the pluralistic atmosphere of the Mughal court particularly during the reign of Shah Jahan the celebrated builder of the Taj Mahal But his widely circulated and emulated works also touch on a range of topics central to our understanding of the court's literary mystical administrative and ethical cultures while his letters and autobiographical writings provide tantalizing examples of early modern Indo-Persian modes of self-fashioning Chandar Bhan's oeuvre is a valuable window onto a crucial though surprisingly neglected period of Mughal cultural and political history

Language, Corpora, and Technology in Applied Linguistics Muhammad Afzaal, Swaleha Bano Naqvi, Geng Qiang, 2023-11-27 As culture and society has become more digitalized especially when computer science and digital technologies have entered a new era in the twenty-first century translation studies began to utilize a wide range of tools to enhance its reading of texts and contexts without which translation both as a practice and as a theorization could barely persist It has become more apparent that two extreme poles between macro and micro visions have formed the diversified terrains of translation studies On the one hand technologies like NLP topic modeling network analysis and data visualization make distant reading become possible thus allowing us to have a paradigmatic view of how human's ideas beliefs values knowledge and even emotions have spread in some patterns across cultural geographical and language

divides in world history On the other hand corpus methods such as the use of keywords collocates and concordance lines changed the way by which texts were closely read from linear to vertical With microscope like corpus tools we could go deeper into the texture for perception of nuanced meaning While considering a fact that translation is seldom mono modal in conveying meaning we have to reconceptualize context as a multimodal environment where audio visual and other resources interact to convey and make meaning With regard to the fast development of digital technology translation studies take an active role in gaining an enhanced capability in promoting transformation Complexity has been favored in terms of theoretical framework and methodology New questions are asked old ones revisited with novel tools but more areas wait to be cultivated and more questions to be approached by combining quantitative and qualitative methods We could ask if digital technologies would bring new innovation to study of translation history a heavily walled land for traditional humanists who tend to repeat so what to question the less significance of data driven studies The idea of high quality machine translation has become so realistic in today s market that translation educators have to face the shock wave it brought to translation learners and practitioners and rethink the relation between human translators and algorithms Machine translation assisted communication could help remove boundaries for better communication but at the same time it also creates conflicts and leads to confrontation Thus understood it is imperative to give a concerned attention to digital translation studies that is to study translation by resorting to and drawing on the digital technologies This Research Topic is intended to promote current directions and new developments in cross disciplinary critical discourse research We welcome papers which from a critical analytical perspective deal with contemporary social scientific political economic or professional discourses and genres Papers addressing the highlighted topics are especially welcome In giving weight to these topics we wish to call to attention some of the most pressing problems currently facing the world Many Call Me Father, But My Kids Call Me Dad James E. Lovejoy, 2007-02 Moving Back to Mars is a curl up on the couch fun book of easy reading full of short stories that have nothing to do with science fiction or the planet Mars It is instead the author s zany struggle to understand and maintain his relationships with the female species If he can just accomplish that he will not have to give in and move home to Mars Both men and women will love reading his viewpoints on everything from why men ever taught women to play golf to exactly how women have overtaken the world right under men s noses This is a book for everyone who enjoys having fun If laughter comes easy to you be prepared to hold your sides At a minimum he guarantees big smiles as you read each different story and try to understand and figure out his plight Just when you think you have the author figured out you ll turn the page and POW you are off in a different adventure Some will say the book is full of convoluted thinking and others will conclude the author is eccentric While both are correct the book contains a lot more than that Moving Back to Mars pokes fun of everything from religion to terrorists from adult children s stories to advice columns Nothing is sacred in this satire piece of work When you finish the last page of this book you will want to start again with Chapter 1 and read it again Moving Back to

G. Maree,2013-09-03 In this book career counselling history best practices as well as contemporary models and methods are brought together In reflecting on the past present and future of career counselling the story of the postmodern narrative or career construction approach and the model and methods used to advance careers in the 21st century is told A meta reflection concept is proposed based on career construction principles and practices and aimed at providing an examination of repeated reflection in career counselling Overall an attempt is made to craft a text that is not just specifically instructive but also more generally so Whereas the theory section includes much that is hands on and practical the inclusion of narratives in the practice section turns theory into practice Narratives illustrate the complexity and contextuality of partnering with clients toward redesigned lives Ultimately the volume aims to demonstrate how Mark Savickas counselling for career construction approach can be used by clients to connect life themes in order to construct life portraits under the guidance of counsellors **My Story** Priscilla Ann Perkins-Perreault-Daw,2020-03-13 My Story By Priscilla Ann Perkins Perreault Daw After going to the doctor for a standard sore throat Priscilla Ann Perkins Perreault Daw suffered from a strange reaction to the medicine she was prescribed After explaining to her doctors that there was something wrong Priscilla was just told to continue taking the medication With no one believing that she is suffering from an actual reaction of some sort Priscilla's doctors dismiss her symptoms and told her she was suffering from a nervous breakdown This book shares her true story and how she overcame this challenge
