

Lifting Angles

The blade support angles are used with either the row-crop or utility tractors. This is done by reversing the position of the angles before attaching them to the blade support frame.

1. On row-crop tractors—Bolt angles to blade support frame in the widest position with the bend

out to permit angles to encircle wheels as illustrated.

Tractors with adjustable front ends and utility tractors—Bolt angles to blade support frame in the narrowest position with the bend inward to permit angles to go between the wheels.

Blade Support Assembly

1. Pin support angles to center support frame.
