

Brake Fluid Reservoir

General Information

The brake fluid reservoir is located to the right of the dash. A correctly filled reservoir guarantees reliable operation of the master cylinder. Reservoirs on combines with 3-speed transmission are equipped with a sight glass for checking of brake fluid level. Reservoirs on combines with 4-speed transmission are equipped with a float. When fluid reaches a maximum level in reservoir, a control light glows on the dash (see operator's manual for details).
