Journals Impact Factor Above 1:

Annual Review of Information Science & Technology Blaise Cronin, 2006-10 ARIST published annually since 1966 is a landmark publication within the information science community. It surveys the landscape of information science and technology providing an analytical, authoritative and accessible overview of recent trends and significant developments. The range of topics varies considerably reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives. While ARIST continues to cover key topics associated with classical information science e.g. bibliometrics, information retrieval, editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities.

The Economics of Open Access Thomas Eger, Marc Scheufen, 2018-06-29 Addressing the recent debate on how the future of academic publishing might look in a purely digital environment, this book analyzes the experiences of researchers with as well as attitudes towards Open Access (OA) publishing. Drawing on a unique in-depth survey with more than 10,000 respondents from 25 countries, Thomas Eger and Marc Scheufen discuss their findings in the light of recent policy attempts which have been trying to foster OA, revealing considerable shortcomings and lack of knowledge on fundamental features of the academic publishing market.

Staying healthy from 1 to 100 Dietger Mathias, 2016-05-25 The largest interventional and monitoring studies to date worldwide give us an excellent overview of our current state of knowledge on the physiological interactions between nutrition and exercise. This wealth of evidence covers aspects like body weight, metabolism, fatty tissue, hormones, the cardiovascular system and skeletal structures, all ultimate determinants of immunity. The book you hold in your hands is based on the findings generated by such long-term investigations. Herein, each topic is dealt with page by page in an understandable manner. The reader will find illustrations and discussions of key physiological adaptation mechanisms and the basic principles of preventive healthcare. This non-fiction work has been written to be easily comprehensible for all individuals interested in learning the salient facts about the popular subjects of health, fitness and nutrition. For this 3rd edition, the text has been revised and updated to the state of the art in science and medicine, including the addition of 11 new topics.

Multidimensional Journal Evaluation Stefanie Haustein, 2012-04-26 Scientific communication depends primarily on publishing in journals. The most important indicator to determine the influence of a journal is the Impact Factor. Since this factor only measures the average number of citations per article in a certain time window, it can be argued that it does not reflect the actual value of a periodical. This book defines five dimensions which build a framework for a multidimensional method of journal evaluation. The author is winner of the Eugene Garfield Doctoral Dissertation Scholarship 2011.

Pathways to International Publication in the Social Sciences Insung Jung, 2025-01-20 This guide offers a clear step-by-step approach for graduate students and early career researchers, especially non-native English speakers seeking to publish in international journals in the social sciences. It provides practical strategies for preparing, submitting and refining research papers, helping researchers navigate the

challenges of academic publishing With 21 chapters the guide covers every stage of writing revising and submission while addressing the unique obstacles faced by non native English speakers The guide helps researchers identify reputable journals avoid predatory ones and use digital tools to meet international standards It then provides a structured roadmap that simplifies the publication process covering steps like journal selection writing compelling abstracts and drafting the methods and results sections By the end of the guide it is expected that researchers will have a strong first draft or ideally a submission ready manuscript The guide also addresses language barriers cultural differences and unfamiliarity with international conventions It offers practical solutions for improving English writing utilizing digital tools responding to peer reviews and managing revisions effectively It emphasizes ethical guidelines like avoiding plagiarism properly crediting co authors and ensuring research transparency to help researchers meet global standards Unlike other research guides this one is specifically tailored to early career and non native English researchers working in social science disciplines It offers practical strategies and real world examples to equip researchers and teachers of research methods and academic writing with a framework for achieving publishing success in global academia

Qualitative Methodologies in Tourism Studies Milka Ivanova,Dorina-Maria Buda,Elisa Burrai,2022-09-05 Disruptive and creative research methodologies proposed in this book are designed to dismantle neoliberal narratives deployed in tourism studies and wider social sciences

Progressing criticality in tourism studies this volume showcases cutting edge contributions ranging from reflexivity subjectivities and dreams to messy emotions in auto ethnographic accounts of fieldwork motherhood capital accessing Inuit communities collective memory work ethnodrama and creative non fiction amongst others Disruption and creativity are the two ideas around which tourism geographers challenge and begin dismantling hegemonic ideologies in tourism studies The chapters in this book provide a vantage point from where to disrupt first before tourism geographers can engender progress and transformation within and outside of the field In tourism studies in general and tourism geography in particular the years of the 2000s have witnessed an emphasis on qualitative methodological research both in terms of the topics addressed and the types of methodological tools In many ways this legitimisation of qualitative work mirrors developments in other areas such as human geography sociology and anthropology in which this book is anchored The authors debate in more depth how tourism studies offer multidimensional multilogical and multi emotional approaches to research design The chapters were originally published as a special issue of the journal Tourism Geographies
