Private International Law and Arbitral Jurisdiction Faidon

Varesis,2022-12-23 International commercial arbitration and litigation are often seen as competing fora fields of law or markets This intersection is at its highest at the forefront of any proceedings at the jurisdictional stage The analysis of jurisdictional issues at the forefront of an arbitration has been confined in a descriptive analysis of the law and jurisprudence dealing with jurisdictional intersections almost in a mechanistic manner These are not however issues which can be treated as mere mechanical rules They are issues pertaining to core notions of authority sovereignty their origins and their allocation At the same time the pragmatic and practical domination of party autonomy is a fact which cannot be disregarded when one considers the normative and theoretical foundations of any model of dealing with these issues This book moves beyond an analysis of arbitration and jurisdiction clauses to reconcile theory and practice and provides an underlying theoretical model to explain and regulate jurisdictional intersections at the early stages of an arbitration from a private international law perspective It combines both an in depth engagement with the theoretical literature as well as a close examination and analysis of its practical consequences in the form of a restatement of the law of England and Wales From a methodological perspective it utilises contemporary theories in private international law to propose a coherent model of regulating arbitral jurisdictions which promotes autonomy and freedom of the parties at this stage Demonstrating first how the theoretical model can be applied in practice and second to provide a basis for a potential future top down or bottom up approach of adopting the proposed model it includes a succinct and practical codification of the current state of affairs in relation to the whole spectrum of jurisdictional issues in England and Wales to serve as a useful tool for practitioners considering jurisdictional issues both from the perspective of State courts and from the perspective of arbitral tribunals as well as academics researching in these areas

international law of property of adults the increasingly complex law of children is described in bare outline and of corporations It does so in a manner which explains and illuminates the principles which underpin the subject in a clear and coherent fashion as the wealth of literature case law and legislation can often obscure the architecture of the subject and unnecessarily complicate its study This new edition organizes the existing material in light of European legislation on private international law reflecting the way in which an accurate representation of the topic requires it to be interpreted as European law with a common law periphery instead of common law with European legislative influences As at the time of writing and possibly for some time to come the consequences of Brexit are a mystery but the attempt is made to describe the various possible shapes which the subject will assume in the future The book adopts a pragmatic approach and avoids the more abstract theory as the theory of the conflict of laws is actually to be found in and by applying the legislation and jurisprudence to the cases and issues which arise in private international litigation and in giving legal advice The Supreme Court of Ghana Law Reports ,2015 Courts' Inquiry into Arbitral Jurisdiction at the Pre-Award Stage Sandra Synková,2013-06-14 International arbitration has become the favored method of resolving disputes between business partners in almost every aspect of international trade commerce and investment The resolution of a dispute by means of international arbitration provides the parties with an opportunity to resolve their disputes in a private confidential cost and time efficient manner before a neutral tribunal of their choice However challenges to arbitral jurisdiction have become a common practice in the field Resolution of such challenges may significantly delay the resolution of the parties primary substantive dispute increase overall dispute resolution costs and even whittle down the benefits of the parties bargain to arbitrate Accordingly adopting a proper approach to the resolution of such disputes becomes crucial to the efficacy of international arbitration as a system of dispute resolution The present book provides a comparative analysis of the practice of three carefully selected legal orders the English German and Swiss and outlines possible ways forward As the work strikes a balance between theory and practice it will appeal to practitioners researchers but also students looking to develop their understanding of the international arbitration field RDA Around the World Marie-France Plassard,Gordon Dunsire,2017-10-02 This book provides a snapshot of the implementation in various countries around the world of the international cataloging standard RDA resource description and access All stages of implementing a new standard are covered from initial assessment and impact analysis through translation staff training and data migration to implementation and user orientation Contributions include the results of detailed research into awareness of the standard in professional groups differences between catalog metadata produced using RDA and current local standards and the effect of RDA on the presentation of catalog displays to the end user The contributions cover aspects of RDA implementation in Canada China German speaking countries Iran Israel Mexico the Philippines Singapore and Turkey and French German and Spanish translation activity The information contained will be relevant for many years to come for those who are intending to
