Jsc Qustion 2013 Drawing:

There is no Supreme Constitution Koos Malan, 2019-10-04 None of the articles of faith of the South African Constitution is plausible The Constitution is not supreme and entrenched Subject to potent socio political forces it changes continuously and often profoundly regardless of stringent amendment requirements The trite threefold separation of powers is more metaphorical than real and therefore unable to secure effective checks and balances Though institutionally separated with their own personnel and functions the three powers are ordinarily integrated in a single dominant political leadership committed to achieving the same ideological goals The bill of individual rights cannot guarantee justice because rights are subject to the ideologically driven exercise of judicial interpretation often with damaging consequences for those relying on the bill of rights This situation does not only apply to South Africa but to all Constitutions premised on the same articles of faith in this book described as the doctrine of statist individualist constitutionalism An improved mode of constitutionalism is called for one which is equipped with a sounder system of checks and balances and better endowed towards the achievement of justice through a balanced constitution

Gender and the Judiciary in Africa Gretchen Bauer, Josephine Dawuni, 2015-10-30 Between 2000 and 2015 women ascended to the top of judiciaries across Africa most notably as chief justices of supreme courts in common law countries like Ghana Nigeria Sierra Leone Gambia Malawi Lesotho and Zambia but also as presidents of constitutional courts in civil law countries such as Benin Burundi Gabon Niger and Senegal Most of these appointments was a first in terms of the gender of the chief justice At the same time women are being appointed in record numbers as magistrates judges and justices across the continent While women's increasing numbers and roles in African executives and legislatures have been addressed in a burgeoning scholarly literature very little work has focused on women in judiciaries This book addresses the important issue of the increasing numbers and varied roles of women judges and justices as judiciaries evolve across the continent Scholars of law gender politics and African politics provide overviews of recent developments in gender and the judiciary in nine African countries that represent north east southern and west Africa as well as a range of colonial experiences postcolonial trajectories and legal systems including mixes of common civil customary or sharia law In the process each chapter seeks to address the following questions What has been the historical experience of the judicial system in a given country from before colonialism until the present What is the current court structure and where are the women judges justices magistrates and other women located What are the selection or appointment processes for joining the bench and in what ways may these help or hinder women to gain access to the courts as judges and justices Once they become judges do women on the bench promote the rights of women through their judicial powers What are the challenges and obstacles facing women judges and justices in Africa Timely and relevant in this era in which governmental accountability and transparency are essential to the consolidation of democracy in Africa and when women are accessing significant leadership positions across the continent this book considers the substantive and symbolic

representation of women's interests by women judges and the wider implications of their presence for changing institutional norms and advancing the rule of law and human rights

Private International Law and Arbitral Jurisdiction Faidon Varesis, 2022-12-23 International commercial arbitration and litigation are often seen as competing fora fields of law or markets This intersection is at its highest at the forefront of any proceedings at the jurisdictional stage The analysis of jurisdictional issues at the forefront of an arbitration has been confined in a descriptive analysis of the law and jurisprudence dealing with jurisdictional intersections almost in a mechanistic manner These are not however issues which can be treated as mere mechanical rules They are issues pertaining to core notions of authority sovereignty their origins and their allocation At the same time the pragmatic and practical domination of party autonomy is a fact which cannot be disregarded when one considers the normative and theoretical foundations of any model of dealing with these issues This book moves beyond an analysis of arbitration and jurisdiction clauses to reconcile theory and practice and provides an underlying theoretical model to explain and regulate jurisdictional intersections at the early stages of an arbitration from a private international law perspective It combines both an in depth engagement with the theoretical literature as well as a close examination and

analysis of its practical consequences in the form of a restatement of the law of England and Wales From a methodological perspective it utilises contemporary theories in private international law to propose a coherent model of regulating arbitral jurisdictions which promotes autonomy and freedom of the parties at this stage Demonstrating first how the theoretical model can be applied in practice and second to provide a basis for a potential future top down or bottom up approach of adopting the proposed model it includes a succinct and practical codification of the current state of affairs in relation to the whole spectrum of jurisdictional issues in England and Wales to serve as a useful tool for practitioners considering jurisdictional issues both from the perspective of State courts and from the perspective of arbitral tribunals as well as academics researching in these areas

Commerce Business Daily, 1997-12-31 **The Anti-Suit Injunction** Thomas Raphael QC, 2019 **Smith and Owen on Asset Recovery** Barrister Tim Owen KC, Tim Owen, Ian Smith, 2025-07-03 This definitive work previously published in looseleaf format is now available in hardback and online formats It offers comprehensive coverage in both criminal and civil law aspects as well as the related areas of money laundering counter terrorist financing and financial sanctions The new updates cover developments since 2019 **The Unity of Law** Rabinder Singh, 2021-12-16 Sir Rabinder Singh has been one of the leading lights in the recent development of the common law most notably in the field of human rights and the law of privacy Here for the first time he reflects on the defining themes of his career as advocate and judge Combining his trademark originality of thought and impeccable scholarship he selects previously published and unpublished writings to track the evolution of his approach to the common law A substantial introduction gives context to the book while opening

introductions to each piece reflect on their relevance to contemporary legal thought The essays explore themes as diverse as judicial review equality and privacy and personal autonomy Insightful erudite and thought provoking this collection is a must read for all those interested in the law and its role in society *Freezing Injunctions in Private International Law* Filip Šaranović, 2022-10-27 The extent of available pre judgment asset preservation relief is widely regarded as a unique characteristic of English law and one of the key factors attracting international commercial litigation to the English courts By taking a novel view of the theoretical foundations of a freezing injunction this book challenges the long established view that such an injunction is an in personam form of relief whose sole purpose is to prevent unscrupulous defendants from making themselves judgment proof Dr Šaranović combines historical and comparative perspectives to identify several theoretical flaws in the court's jurisdiction to grant this popular form of interim relief The book demonstrates that the current application of private international law rules in this field leads to inequality among litigants and illegitimate encroachment upon the sovereignty of foreign states It proposes a range of possible solutions to alleviate concerns about the scope of freezing injunctions both in the domestic and international arena *Administrative Law* Mark Elliott, Jason N. E. Varuhas, 2017 *Administrative Law Text and Materials* combines carefully selected extracts from key cases articles and other sources with detailed commentary Aimed at undergraduates studying administrative law it provides comprehensive coverage of the subject and brings together in one volume the best features of a textbook and a casebook Rather than simply presenting administrative law as a straightforward body of legal rules this engaging critical text considers the subject as an expression of underlying constitutional and other policy concerns which fundamentally shape the relationship between the citizen and the state The result is a fascinating account of a subject of crucial importance Online Resource Centre The book is supported by online an Online Resource Centre offering the following useful resources Updates which cover all the legal developments since publication Oxford NewsNow RSS feeds provide constantly refreshed links to the latest relevant new stories Interactive timeline of key dates in British political history Annotated web links
