YCT Expert Team , 2025 26 ITI Electrician Trade Electrical Numerical Formula Question Bank Solved Papers 1124 1295 This book contains 704 sets of the previous years solved papers with 11557 objective questions      Energy Efficiency Clauses in Charter Party Agreements George Adamantios Psarros,2016-12-10 This book provides practical solutions for addressing energy efficiency as a clause term within a charter party contract For this upon a reflection of the regulatory craft it analyzes key concepts of case law and discusses them together with commercial and economic principles In this way the book aims at offering a comprehensive interdisciplinary view of the chartering process together with a new approach for safeguarding energy efficiency investments A special emphasis is given to the maritime industry Here the newly developed framework based on game theory has been successfully applied to demonstrate the importance of including a clause term in contract negotiation to achieve protection against both an uncertain market and an even more challenging shipping environment The book not only fills a gap in the literature covering a topic that has been largely neglected to date yet it offers researchers and practitioners extensive information to change the chartering process radically      *What levels of explanation in the behavioural sciences?* Giuseppe Boccignone,Roberto Cordeschi,2015-07-03 Complex systems are to be seen as typically having multiple levels of organization For instance in the behavioural and cognitive sciences there has been a long lasting trend promoted by the seminal work of David Marr putting focus on three distinct levels of analysis the computational level accounting for the What and Why issues the algorithmic and the implementational levels specifying the How problem However the tremendous developments in neuroscience knowledge about processes at different scales of organization together with the complexity of today cognitive theories suggest that there will hardly be only three levels of explanation Instead there will be many different degrees of commitments corresponding to the different granularities from

high level behavioural models to low level neural and molecular models of the cognitive research program For instance Bayesian approaches that are usually advocated for formalizing Marr s computational level and rational behaviour have even been adopted to model synaptic plasticity and axon guidance by molecular gradients As a result we can consider the behavioural scientist as dealing with models at a multiplicity of levels The purpose of this Research Topic in Frontiers in Theoretical and Philosophical Psychology is to promote an approach to the role of the levels and explanation and models which is of interest for cognitive scientists neuroscientists psychologists behavioural scientists and philosophers of science
