challenge to her congressional colleagues and to the rest of the nation to adopt a parent's perspective for doing right by kids. Marked by clarity and by Debbie's characteristic poise, this polemic is informed by the congresswoman's own personal and professional experiences. It digs deep, exposing very real threats that America faces as a result of its failure to confront tough decisions. Debbie conveys a vision of an America that has learned hard lessons from its recent past, an America galvanized by a renewed sense of purpose for applying that wisdom through forward-thinking policies on education, civil rights, and foreign policy. She describes how she will fight to overcome the legislative obstacles that inhibit progress and she calls upon fair-minded Americans to lend their own strengths to securing a better tomorrow for the next generation. **Next Generation**

Bruce Doern, 2004-10-19. Drawing on the work of academics and other experts from across Canada, Carleton University's School of Public Policy and Administration's annual book takes a focused and robust look at an era where a political coronation seemed inevitable but high expectations had to be managed downwards almost immediately. A less-than-buoyant fiscal surplus, escalating concerns about liberal ethics and corruption, and a growing volatility in public opinion are examined, as are Canadians' increasingly uncertain views about the new Liberal leadership versus the old Liberal Party's ten-year hold on power. A new Conservative Party and a suddenly feisty New Democratic Party are also a central part of the new

2004-2005 Canadian political and policy milieu. **The Unauthorized Trekkers' Guide to The Next Generation and Deep Space Nine** James Van Hise, 1995.
