find a cure for cancer These are just some of the dilemmas that we are beginning to face as we approach the age of the
algorithm when it feels as if the machines reign supreme Already these lines of code are telling us what to watch where to go
whom to date and even whom to send to jail But as we rely on algorithms to automate big important decisions in crime

relatable real world stories with accessible explanations of the underlying mathematics that power algorithms Hello World
helps us to determine their power expose their limitations and examine whether they really are improvement on the human
