June 2013 Core Studies Psychology Ocr:

OCR Psychology Philip Banyard, Cara Flanagan, 2013-09-05 OCR Psychology Third Edition is endorsed by OCR for use with the OCR AS Psychology specification. This book prepares students for all elements of the OCR Psychology AS exam. It covers both research methods and core studies, giving the who, what, where, and even the why of each study. It also looks at some of the work that followed the studies. Key features of the book include Psychological Investigations, the first chapter of the book, which helps students to understand research methods in psychology; useful support for the Psychological Investigations exam; and for understanding the core studies themselves. Core Studies: each study is described first in a nutshell, followed by a detailed account of the aims, method, results, and conclusions. Guidance is given on how each study can be evaluated, and a wealth of extra materials is provided for each study: questions to assess understanding, practical activities, multiple choice and exam style questions, further reading, and video links. Background to each core study is included in the Starters and Afters, featuring information about related research before and after the study, and biographical details of the researcher. s Approaches, perspectives, issues, and methods are considered in a brand new chapter to cover the themes of the course and prepare students for the long answer questions on the Core Studies exam. Exam guidance: each chapter ends with short and long answer exam style questions, answered by students with teacher feedback. The book is presented in colourful and well structured magazine style spreads to aid the learning process. This 3rd edition has been completely revised and is now accompanied by a companion website featuring an extensive range of online resources for both teachers and students, including answers to the questions posed in the book, glossary, flash cards, and multiple choice test banks. **Advancing**

Empathy and Equity in Early Childhood Education Christine Mason, Randy Ross, Orinthia Harris, Jillayne Flanders, 2024-11-05. Antiracism and cultural competence when incorporated into early childhood education can powerfully impact young children's social and emotional development. Authors Christine Mason, Randy Ross, Orinthia Harris, and Jillayne Flanders guide leaders in cultivating compassion and equity in their school communities. Explore reflective practices with questions and activities based on fifteen principles to address inequities affecting students, staff, and families. This book will help preK-3 leaders and childcare center directors cultivate antiracism and cultural competence with visioning, action planning, targeted professional development, and curricula that support equity and justice. Address implicit bias even in the midst of dissension among staff and families. Develop an antiracist, culturally competent school climate. Deepen their own knowledge and understanding of chapter content using reflection questions and activities. Reduce inequities leading to the preschool-to-prison pipeline. Contents: Foreword, Introduction, Kind Minds and Big Hearts, Part 1: Foundations, Chapter 1: Bold Leadership Necessary for Heart-Centered Antiracist Education, Chapter 2: Historical Threads of Bias, Acknowledgment of What Must Change, Chapter 3: Support for All Students: A Continuum From Multicultural to Antiracist Movements, Chapter 4: My Heart to Yours: A Heart-Centered Lens, Chapter 5: One C to Another: The Five Cs of Heart-Centered Learning, Chapter 6: A

 Julia Angwin reports from the front lines of America's surveillance economy offering a revelatory and unsettling look at how
 the government private companies and even criminals use technology to indiscriminately sweep up vast amounts of our
 personal data In a world where we can be watched in our own homes where we can no longer keep secrets and where we can
 be impersonated financially manipulated or even placed in a police lineup Angwin argues that the greatest long term danger
 is that we start to internalize the surveillance and censor our words and thoughts until we lose the very freedom that makes
 us unique individuals Appalled at such a prospect Angwin conducts a series of experiments to try to protect herself ranging
 from quitting Google to carrying a burner phone showing how difficult it is for an average citizen to resist the dragnets reach
