

The HEAB 095 crane is a further development of the popular HEAB 090, but it does everything better. Both cranes look very similar, but that's where the similarities cease.

The HEAB 095 features a new, low-headroom boom system with a separate telescopic cylinder on each extension, we have done away with all moving on the outer boom and extensions and reduced the need for a hook attachment to just one - on the outer extension. All this leads to easier handling in confined areas. And being larger cylinders consistently reduce friction and give smoother movements.

The HEAB 095's working geometry has been optimized, resulting in better lifting capacity - in the upper lifting range, capacity has been boosted by over 20%. What's more, the 095 has an amazing close-in lifting height.

The HEAB 095 is a modern general cargo crane in the 10-ton capacity class, that offers excellent maneuverability. Choose between cruise controls, HEAB's well-known hi-vision version with the new computerized 3D or the more advanced computer with HEAB vision 3D and 3D-view of control-console.

The design solutions include feeding the oil for the hydraulic extensions through the cylinder sections, which eliminates all external hoses or piping on the outer boom.

The main extensions of model HEAB 095-A extend on hydraulic telescopic at almost 75 meters.

A pressure to control and control with the ControlDial 3D remote control. In an advanced, the most advanced ControlDial.
